Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

This project contains a look into the manufacturing company of Ford Motor Company. Research was done about how the company runs business, both globally and domestically. In this report, the company's mission, goals, strategies, product and service portfolios, market share and profit performance, technology and employment information are outlined. Key successes and weakness failures are also discussed in detail. Information about Ford's use of computer systems and an information model for the company is also included. The information model displays Ford's Work System, showing which components of the Work Organization, Control System, Industrial Relations and Human Resources Practices Ford implements. The Business Organization, with Ford's Business Strategy and Enterprise Organization is also part of the model. At the end of the report, self-evaluations by team members and references can be found. Ford Motor Company is currently trying to increase its global market share in automobile sales while facing slumping market share numbers in the United States. This report examines the Ford company characteristics and how the company uses information systems in the business climate. To reduce costs and increase knowledge of a region Ford uses small ERP systems that are less expensive and faster to implement than the larger ERP systems. Failure to obtain a larger market share in foreign markets has hurt the company. The proper use of information systems by Ford will increase their ability to maintain a successful business in future years locally and globally.

Lists manufacturers' suggested retail and dealer invoice prices for all models, foreign and domestic, along with information on standard and optional equipment, specifications and reviews, and buying and leasing advice

"Unlocking Ford Secrets," written by retired Ford quality experts, will help suppliers successfully consolidate operations through the integration of all design, engineering and manufacturing functions for improved capabilities at lower costs. The book is an

in-depth, technical textbook designed to provide a proven roadmap for automotive companies and suppliers to improve the quality and reliability of their products while effectively consolidating suppliers and manufacturing locations in order to create best-in-class products to increase profitability. The book contains hundreds of pages of exclusive content from Dr. W.E. Deming, Ford Alpha and other experts, and 71 detailed case studies.

Following the success of his first book, Drag Racing 101, where IH Racing 's Team Owner Ike Heckler Jr. explains how to build your first race car and secure sponsorship, Ike now brings you Drag Racing 201 – Racing in the New Economy. After racing at NHRA tracks in the northeast and southeast for the past 10 years in a booming economy where securing sponsorships was relatively easy, Ike takes you on an exciting journey through 2010 and explains what it is like to uproot your personal life in order to pursue the goal of semi-pro drag racing. With over 52 career round wins and national media exposure from SPEED TV 's Pinks All Out, NHRA 's National Dragster, and NMCA 's Fastest Street Car magazine, Ike has secured corporate sponsorships from Lucas Oil, VP Racing Fuels, WIX Filters, O ' Reilly Auto Parts, ReMax Realty, Holiday Inn Hotels & Resorts, CARQUEST Auto Parts, and Ken ' s Speed & Machine. IH Racing 's primary sponsor, Premier Properties of the Space Coast, is owned by Mr. Heckler and develops residential and commercial properties in southeast Florida. In Drag Racing 201 Ike explains how to use your own company together with your other sponsors to be able to fund a full race season and be able to travel the hundreds of miles from racetrack to racetrack economically. From getting into the Final 32 at the Pinks All Out event in West Palm, FL to making the WIX All Out 16 at the Pinks All Out event at zMax Dragway in Charlotte, Ike brings you along to all the other races and other fun events he was able to attend in 2010 with the help of good friends and sponsors. You will also ride along as he moves from Florida to North Carolina, then back to Florida just so he could honor his commitment to all his sponsors and race the season. He will also show you how the degrading economy affected his racing operation in 2010 and how he had to adjust and sacrifice his personal life to be able to race and survive. Drag Racing 201 then looks into the future of the sport and projects how it may look a few years from now and gives the reader some valuable tips on how to afford racing a full season and how the racer may have to live differently in order to race and live their dream. Ike also gives the reader some valuable sponsorship tips along the way that will help with sponsor exposure and could make securing sponsorships a little easier. This 80 page full color book has over 75 pictures highlighting the West Palm FL, Charlotte NC, and the Bristol TN Pinks All Out events (and getting on SPEED TV), the Atlanta, NHRA Unleashed event, and what it feels like to work for an NHRA national event. If your goal is to drag race in the New Economy, this book is a must read that will save you money and increase your sponsor exposure !!
