It's all here: Detailed descriptions and values for the world's military firearms, from Argentina to Yugoslavia Descriptions and values for related accessories including clips, magazines, bayonets and holsters ALL-new entries for antique, pre-cartridge era military firearms And much more! Protect yourself! Don't pay too much for military firearms--or sell for too little! Know what your collection is worth with Standard Catalog of Military Firearms, 6th edition!

More than 775 models of Smith & Wesson guns produced since 1857 are listed according to model and year of manufacture with updated prices in up to five grades of condition. Includes a range of serial numbers for each year of manufacture. This is the most comprehensive list of Smith & Wesson products and prices available.

With more than seven million copies sold, this is the must-have reference book for gun collectors and firearm enthusiasts of all ages. Published annually for more than eighty years, the Shooter's Bible is the most comprehensive and sought-after reference guide for new firearms and their specifications, as well as for thousands of guns that have been in production and are currently on the market. Nearly every firearms manufacturer in the world is included in this renowned compendium. The 11th edition also contains new and existing product sections on ammunition, optics, and accessories, along with updated handgun and rifle ballistic tables and extensive charts of currently available bullets and projectiles for handloading. With a timely feature on the newest products on the market, and complete with color and black-and-white photographs featuring various makes and models of firearms and equipment, the Shooter's Bible is an essential authority for any beginner or experienced hunter, firearm collector, or gun enthusiast.

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneraton. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

This is a collection of horror stories with surprise endings. If you don't like horror, please do not read this book. STORIES IN THIS BOOK CRAWLSPACE: Two reporters interview a strange humpbacked man in a house where gruesome experiments were conducted by previous owners. CONVERTIBLE BANDITS: Two travelers take a tip to save time by taking a shortcut on a lonely road not on their map. JUMPER: A patrol officer discovers a lovesick young man on a bridge contemplating suicide. THE ABHORRENT CLUB: A group of depraved multimillionaires sponsor a freak show for their annual event. DEAD: A young man killed in an automobile accident ten years ago visits his parents. BUG: A professor is propositioned by a student who offers him sex for an "A." VAMPIRE: After a woman and her son move to town, a serial killer begins a reign of terror. STRANGER IN THE RAIN: A stranger asks a man in the deserted pool area of a large resort hotel if he will have dinner with him. NO REST FOR THE DEAD: A gravedigger provides fresh cadavers for medical research and makes a killing. PANDORA'S BOX: A man learns the love of his life can only marry him if he promises never to open her black box. THE MONSTER NEXT DOOR: An apartment dweller is convinced his next door neighbor is a monster. THE WALL: A rich playboy discovers an island with an enormous wall, Japanese soldiers, and a village of pygmy cannibals. THE GREAT ZANDINI: A man hypnotized in a nightclub act becomes involved in a murder plot.
