Cameras can capture what the eye can't perceive: the presence of infrared light. And shooting infrared (IR) with a digital camera makes it easier than ever to create distinctively dreamlike, high-contrast black-and-white pictures. Using a wealth of stunning images, this thorough resource explores the technical and creative possibilities of this unique and increasingly popular medium. Get tips on focus and exposure; IR filters; and having a camera converted to shoot specifically in infrared. Follow instructions for processing and printing the photos--including toner effects and faux color. One glance through this guide and it's clear why infrared pictures are fun to take and beautiful to look at.

An illustrated introduction to digital photography, examining hardware such as cameras, computers, scanners, and printers and the relationship between them; looking at image-editing software, tools, and techniques; featuring step-by-step instructions for taking professional-quality photographs; and discussing special-effects options.

This book provides an extensive overview of producing in the ever-changing field of journalism for all types of newsrooms. Featuring interviews with renowned journalism professionals, A Complete Guide to Television, Field, and Digital Producing offers an in-depth look at the broadcast, field, and digital producing practices of newsrooms today. The book is divided into three parts: television news producing, field producing, and digital producing. Each part provides a clear explanation of the producing role before going into more detail on important skills such as developing stories, writing copy, creating graphics, producing live on location, audience engagement, and using social media. Each chapter includes a variety of supplemental material, including discussion questions, keyword definitions, classroom activities, and graded assignments, including rubrics. Written with a combined 64 years of journalism and journalism education experience, the book will prepare students to produce whatever their job requires. Taking an integrated approach to journalism education, this is a vital text for journalism and media students studying digital media, broadcast journalism, social media, and reporting.

marketing and distribution. Lorene Wales offers a hands-on approach suitable for projects of any budget and scale, explaining every stage and key role/position in the life of a film and providing a wealth of sample checklists, schedules, accounting paperwork, and downloadable forms and templates for practical use. Other topics include a description of the latest mobile apps used in production, tax incentives, the DIT, set safety, and an expanded chapter on copyright, fair use and other legal matters. A companion website includes video tutorials, a personnel hierarchy, a guide to mobile apps useful during production, PowerPoints for instructor use, and a complete set of sample production forms and templates for download, including schedules, accounting paperwork, releases, and production checklists.

Scholars and scrapbookers alike need your help with saving their most important digital content. But how do you translate your professional knowledge as a librarian or archivist into practical skills that novices can apply to their own projects? The Complete Guide to Personal Archiving will show you the way, helping you break down archival concepts and best practices into teachable solutions for your patrons' projects. Whether it's a researcher needing to cull their most important email correspondence, or an empty-nester transferring home movies and photographs to more easily shared and mixed digital formats, this book will show you how to offer assistance, providing explanations of common terms in plain language; quick, non-technical solutions to frequent patron requests; a look at the 3-2-1 approach to backing up files; guidance on how to archive Facebook posts and other social media; methods for capturing analog video from obsolete physical carriers like MiniDV; proven workflows for public facing transfer stations, as used at the Washington, D.C. Memory Lab and the Queens Library mobile scanning unit; talking points to help seniors make proactive decisions about their digital estates; perspectives on balancing core library values with the business goals of Google, Amazon,
