His father lost the family land in a bet, and his bitterness hasn't been sweetened by the fruit of his labour. Can Elizabeth carve her own journey and make a home for herself while her sister is still missing? Can Jonathan be brave enough to put the past behind him and find purpose again? Or will they both learn that life never goes in the direction you think, and love is always ready to take you on a different journey? This is a sweet historical Western romance, with no passionate scenes, a happily ever after, and is part of a series that can be read in any order.

Nicky and Michele's story, describing the battle with cancer in great detail. However, this book is about more than cancer and its treatment and the fight to survive. It's about more than a mother and her son who had to face his mortality at such a young age and the despair and anguish that comes in losing that fight. It's about more than death . . . This book is about life. It's about how this mother and son approached the everyday moments of life despite the greater story that was playing out around them and was outside of their control. It's about what each had learned from the other and the influential roles played in their life experiences. It is about how it still affects the life of the one left behind. It's about the depth of human spirit and the soul's ultimate survival, along with what the survivor is supposed to do with that energy. The connection between this mother and her son has lived on long after his passing, and it continues to be a force in this mother's life every day. The inspiration in this story comes from the millions of small everyday moments, the choices made, the words spoken, and the unconditional love that makes such a seemingly senseless experience somehow bearable. This book gives a voice to parents and loved ones, caregivers and patients, those who relate to this loss, and those who know they feel every heartbeat in this story but who also struggle to come to grips with their own experience.
