Life: A User's Manual is Georges Perrec's most famous novel, published in 1978, first translated into English by David Bellos in 1987. Its title page describes it as "novels", in the plural, the reasons for which become apparent on reading. Some critics have cited the work as an example of postmodern fiction, but Perrec preferred to avoid labels and his only long-term affiliation with any movement was with the Oulipo or OUvoir de Littérature Potentielle. La Vie mode d'emploi is a tapestry of ...

What is the point? What is the purpose of life? Why must I suffer the stress, and anxiety that comes with it? Why does it all seem so hard and so unfair? If you have asked yourself any of these questions, then you have found the book you are looking for. There are answers to all of these questions and Anderson Silver has compiled teachings from Stoicism and other schools of thought in Your User's Manual. This refreshing collection not only gives the reader much sought after answers, but also provides the tools for finding purpose, and living an anxiety-free life in the modern world. Meant as a light read that the reader can come back to and meditate on periodically, Anderson has done a wonderful job of condensing fundamental teachings, making Your User's Manual a straightforward read in answering life's most pressing questions and recognizing what is truly important.

The news is everywhere. We can't stop constantly checking it on our computer screens, but what is this doing to our minds? We are never really taught how to make sense of the torrent of news we face every day, writes Alain de Botton (author of the best-selling The Architecture of Happiness), but this has a huge impact on our sense of what matters and of how we should lead our lives. In his dazzling new book, de Botton takes twenty-five archetypal news stories—including an airplane crash, a murder, a celebrity interview and a political scandal—and submits them to unusually intense analysis with a view to helping us navigate our news-soaked age. He raises such questions as Why are disaster stories often so uplifting? What makes the love lives of celebrities so interesting? Why do we enjoy watching politicians being brought down? Why are upheavals in far-off lands often so boring? In The News: A User's Manual, de Botton has written the ultimate guide for our frenzied era, certain to bring calm, understanding and a measure of sanity to our daily (perhaps even hourly) interactions with the news machine. (With black-and-white illustrations throughout.)

In this ingenious book Perrec creates an entire microcosm in a Paris apartment block. Serge Valene wants to make an elaborate painting of the building he has made his home for the last sixty years. As he plans his picture, he contemplates the lives of all the people he has ever known there. Chapter by chapter, the narrative moves around the building revealing a marvellously diverse cast of characters in a series of every more unlikely tales, which range from an avenging murderer to an eccentric English millionaire who has devised the ultimate pastime...

The #1 bestseller that gives YOU complete control over your body and your health. In this updated and expanded edition, America's favorite doctors, Michael Roizen and Mehmet Oz, discuss how YOU actually have control over your genes. Discover how diseases start and how they affect your body—as well as advice on how to prevent and beat conditions that threaten your quality of life. YOU: The Owner's Manual challenges preconceived notions about how the human body works and ages, and takes you on a fascinating grand tour of all your blood-pumping, food-digesting, and numbers-remembering systems and organs—including the heart, brain, lungs, immune system, bones, and sensory organs. There are also 100 questions asked by you, and answered by the experts. For instance, do you know which of the following statements are true? As you increase the amount you exercise, the rewards you gain from it increase as well. If you're not a smoker, you have nothing to worry about when it comes to your lungs. Your immune system always knows the difference between your own cells and enemy invaders. The biggest threat to your arteries is cholesterol. Memory loss is a natural, inevitable part of aging. Stress is the greatest ager, and controlling it changes which of your genes is on. Did you answer "true" for any of the above? Then take a look inside. Complete with exercise tips, nutritional guidelines, simple lifestyle changes, and alternative approaches, YOU: The Owner's Manual debunks myths and gives you an easy, comprehensive, and life-changing How-To plan—as well as great-tasting and calorie-saving recipes—that can help you live a healthier, younger, and better life. Be the best expert on your body!

"Congratulations on the purchase of this exclusive product, tailor-made just for you. It will provide you with years of continuous service." The brain is one of nature's most miraculous but misunderstood creations. In this fascinating user-friendly guide, you will discover all you need to know about what is ceaselessly happening inside your head - from the 38 million billion calculations the brain makes per second, to the complex distribution of memory (there is no central storeroom for information) and why love is an entirely neuronal experience. With wit and style, Marco Magrini cuts through the noise of cerebral misinformation to tell the real story of who you are and, crucially, what you are capable of achieving. N.B. Product comes with a 10-year warranty. T&Cs apply "A fantastically original and clever way to popularise neuroscience." - Professor Gilberto Corbellini, Philosophy of Science, La Sapienza University, Rome "In these pages, Magrini describes beautifully, and often very humorously, the extraordinary harvest of new neuroscientific discoveries shedding light on the most complex and astonishing thing in the universe itself." - Tomaso Poggio, MIT McGovern Institute

The Owner's Manual to the Voice demystifies the voice, enabling singers and all voice professionals - whether actors, broadcasters, teachers, preachers, lawyers, public speakers- to communicate intelligently with physicians and understand dangers, treatments, vocal hygiene and medical procedures.

Ockham's razor, the principle of parsimony, states that simpler theories are better than theories that are more complex. It has a history dating back to Aristotle and it plays an important role in current physics, biology, and psychology. The razor also gets used outside of science - in everyday life and in philosophy. This book evaluates the principle and discusses its many applications. Fascinating examples from different domains provide a rich basis for contemplating the principle's promises and perils. It is obvious that simpler theories are beautiful and easy to understand; the hard problem is to figure out why the simplicity of a theory should be relevant to saying what the world is like. In this book, the ABCs of probability theory are succinctly developed and put to work to describe two 'parsimony paradigms' within which this problem can be solved.

From the ordered universe of the ancient Greeks to the shadows of Nietzsche's nineteenth century, LEARNING TO LIVE shakes the dust from the history of philosophy and takes us on a fascinating journey through more than two millennia of humanity's search for understanding - of the world around us and of each other. Both a sparkling and accessible history of Western thought, and a courageous dissection of how religion and philosophy have converged and clashed through the ages, Luc Ferry's blueprint for a new humanism challenges every one of us to learn to think for ourselves, and asks us the most important question of all: how can we live better?

An opinionated, illustrated guide for cocktail beginners, covering the basics of spirits plus making and drinking cocktails, written by celebrated craft cocktail bartender Jeffrey Morgenthaler.
