To access the eText and MyLab Accounting you need a course ID from your instructor. The 10th edition of this market-leading text offers an accessible, effective introduction to key accounting and finance topics. If you are new to accounting, or are studying a degree in accounting, this book will help you get to grips with the important principles of accounting and how to apply your learning to real-world business scenarios in a user-friendly manner.

Accounting and Finance for Managers is specifically designed for the needs of MBA, EMBA and MA Business and Management students. It includes worked examples throughout the chapters, as well as real-world scenarios and full exercises at the end of each chapter. The book also includes 'Expert view' notes, which encourage students to think more broadly and present them with further issues to consider. For lecturers, the book begins with an indication of how the course material throughout the book might be divided over different time periods. Providing coverage of basic bookkeeping, readers will learn how to interpret financial statements and grasp underlying theory, interpret a cash budget and identify potential problems, identify appropriate pricing strategies to fit different markets and products/services and incorporate financial evaluation into operational decision making and problem solving. Online supporting resources for this book include bonus chapters covering topics such as cash flow, investment decisions and business planning, and lecture slides for each chapter.
