He was one of the founders of the Ethiopian Journalists Forum (EJF), an independent association made up of largely young journalists who advocate for greater press freedom in his country. was persecuted by the Ethiopian secret service and decided to save his life by fleeing to Nairobi, Kenya where he has received refugee status. This essay tells the sad story of the Ethiopian media which is faced – after a spell of press freedom and freedom of speech – with prosecution, often based on false accusations. The victims are brave journalists and media publishers who were detained or fled Ethiopia, so that they can continue reporting about the government's violation of human rights. The author's main message is that a government which doesn't respect media freedom, blocks a country's development in the broadest sense of the term. A publication

This book takes stock of political reform in Ethiopia and the transformation of Ethiopian society since the adoption of multi-party politics and ethnic federalism in 1991.

Decentralization, attempted democratization via ethno-national representation, and partial economic liberalization have reconfigured Ethiopian society and state in the past two decades. Yet, as the contributors to this volume demonstrate, 'democracy' in Ethiopia has not

changed the authority structures and the culture of centralist decision-making of the past. The political system is tightly engineered and controlled from top to bottom by the ruling Ethiopian Peoples' Revolutionary Democratic Front (EPRDF). Navigating between its 1991 announcements to democratise the country and its aversion to power-sharing, the EPRDF has established a de facto one-party state that enjoys considerable international support. This ruling party has embarked upon a technocratic 'developmental state' trajectory ostensibly aimed at 'depoliticizing' national policy and delegitimizing alternative courses. The contributors analyze the dynamics of authoritarian

Chapters on ethnic federalism, 'revolutionary democracy', opposition parties, the press, the judiciary, state-religion, and state-foreign donor relations provide the most comprehensive and thought-provoking review of contemporary Ethiopian national politics to date. This book is based on a special issue of the *Journal of Eastern African Studies*.

In February 1937, following an abortive attack by a handful of insurgents on Mussolini's High Command in Italian-occupied Ethiopia, 'repression squads' of armed Blackshirts and Fascist civilians were unleashed on the defenseless residents of Addis Ababa. In three terror-filled days and nights of arson, murder and looting, thousands of innocent and unsuspecting men, women and children were roasted alive, shot, bludgeoned, stabbed to death, or blown to pieces with hand-grenades. notorious Viceroy Rodolfo Graziani, infamous for his atrocities in Libya, took the opportunity to add to the carnage by eliminating the intelligentsia and nobility of the ancient Ethiopian empire in a pogrom that swept across the land. In a richly illustrated and ground-breaking work backed up by meticulous and scholarly research, Ian Campbell reconstructs and analyses one of Fascist Italy's least known atrocities, which he estimates eliminated 19-20 per cent of the capital's population.
