Amazon Echo Plus (2nd Generation) Review | PCMag
Amazon Echo has a 2.5" downward-firing woofer and 0.6" tweeter powered by Dolby to deliver crisp vocals and dynamic bass throughout the room. If you are a Prime member, you already have access to Amazon Prime Music- just ask for your favourite artist or song, or request a specific genre or mood.

What is Amazon Alexa all about? Well, in essence, this is a small tool developed by Amazon, which can act as a personal assistant through voice interaction and music playback. You can also stream podcasts, make a to-do list, use its home automation function to control smart devices around the house as well as performing other duties. In most cases, you can always activate the device using a wake-word, or push a button to activate the device's listening mode, and Amazon is always working on making Alexa better. The device is worth considering and can be handy as well, but first, check out what is in it for you. You can get a companion app for this device from Google Play, Apple Apps or Amazon App Store. You can then use control music view shopping lists or install skills on the devices that you have synchronized with your Amazon Alexa. And if you want to set up several compatible devices such as Amazon Dot, Amazon Echo, or such, a web interface comes will be beneficial. Besides, you can recognize text on your app screen, as well as send feedback to Amazon regarding the cognition. Amazon Alexa is capable of carrying out numerous functions around the house and beyond. One of the ways, you can use it is home automation, since it can be set to interact with several devices in the house to carry out several tasks. This feature was launched in 2015 and has been a game changer for many users of this device. Another thing you will love about this smart device is placing orders. If you want take-out food, then Alexa is one of the ways you can use to place the order. This is all thanks to support by Grubhub, Domino's Pizza, Wingstop, Seamless, and other companies. You can also order meals with Amazon Prime using Alexa in as many as 20 major cities in the US. What's more, an addition in November 2017 including Alexa Cloud Cam is proving effective in helping Amazon couriers unlock front doors to customer houses when delivering packages so that they can put them safely inside the house.
