The law of evidence, also known as the rules of evidence, encompasses the rules and legal principles that govern the proof of facts in a legal proceeding. These rules determine what evidence must or must not be considered by the trier of fact in reaching its decision. The trier of fact is a judge in bench trials, or the jury in any cases involving a jury. The law of evidence is also concerned with the quantum, quality, and type of proof needed to prevail in litigation. The rules vary depending u

~~Evidence (law) — Wikipedia~~

Evidence analysis is a process in which evidence related to a criminal trial is analyzed to learn more about it. While some evidence may provide all the information one might need with a surface examination, often, the evidence needs to be explored more deeply.

~~What is Evidence Analysis? (with pictures)~~

Also known as indirect evidence, this type of evidence is used to infer something based on a series of facts separate from the fact the argument is trying to prove. It requires a deduction of facts from other facts that can be proven and, while not considered to be strong
