The present grammar has been prepared with a view to meet the growing educational need of university students. The author has done his best to bring the present grammar up to the requirements of the students. In writing the various chapters of this book, the author has closely followed Pannini, as explained by Bhattoji Diksita. Many of the rules given here are translations of the relevant Sutras of Panini. The original Sutras are given in footnotes, where necessary. Sandhis and declensions are fully treated; compounds which dominate classical Sanskrit literature have received special attention; formation of feminine bases has been illustrated; Taddhita affixes have been arranged in an alphabetical order. A special feature of the present grammar is the chapter on the Conjugation of Verbs. The general rules given are amply illustrated by examples. All the verbs which change their pada when preceded by particular prepositions are given in an alphabetical order. The chapter on Syntax contains almost everything given in the first 20 chapters of author's Guide to Sanskrit Composition; the chapter on Prosody is based on the Chandomanjari and the Vrttaratnakara. The author has spared no pains to make the book as useful and as complete as possible.

Food and Beverage Services is a comprehensive textbook designed for hotel management students. It enumerates the various aspects of food and beverage department such as understanding of the industry, organisation of the department, menu served, various service procedures, managing cordial relations with customers, environmental concerns etc.

Accompanying DVD contains videos & PowerPoint presentations on different aspects of hotel housekeeping .

Theory of Bakery is designed for students of Diploma and Food Craft courses in Hotel Management. Catering to the syllabus of National Council for Hotel Management and Catering Technology completely, the book elaborates on the concept of bakery, equipment used for baking and some of the popular Indian sweets. The book begins with giving an introduction to bakery and pastry making along with the role of ingredients in preparing them. From bread fabrication, to sugar confections to the various methods used for pre-preparation of breads and pastries such as Sifting, Autolysis, Piping, Whipping etc., the book has been planned to provide a detailed understanding to all the processes of Bakery. Various cold and hot desserts such as fruit based, deep fried, frozen, Jellies and more have been discussed at length. Common faults while preparing cake, cookies, sauce have been discussed for the benefit of students and young professionals.

Introduces domestic and global macroeconomic developments, policies, and data for business professionals and students with no background in economics.

Arun Bala challenges Eurocentric conceptions of history by showing how Chinese, Indian, Arabic, and ancient Egyptian ideas in philosophy, mathematics, cosmology and physics played an indispensable role in making possible the birth of modern science.
