Global Marketing, 3rd edition, provides students with a truly international treatment of the key principles that every marketing manager should grasp. International markets present different challenges that require a marketer to think strategically and apply tools and techniques creatively in order to respond decisively within a fiercely competitive environment. Alon et al. provide students with everything they need to rise to the challenge: Coverage of small and medium enterprises, as well as multinational corporations, where much of the growth in international trade and global marketing has occurred; A shift toward greater consideration of services marketing as more companies move away from manufacturing; A shift from developed markets to emerging markets with more dynamic environments A focus on emerging markets to equip students with the skills necessary to take advantage of the opportunities that these rapidly growing regions present; Chapters on social media, innovation, and technology teaching students how to incorporate these new tools into their marketing strategy; New material on sustainability, ethics, and corporate social responsibility; key values for any modern business; Short and long cases and examples throughout the text show students how these principles and techniques are applied in the real world; Covering key topics not found in competing books, Global Marketing will equip today's students with the knowledge and confidence they need to become leading marketing managers. A companion website features an instructor's manual with test questions, as well as additional exercises and examples for in-class use.

Essentials of Marketing: A Marketing Strategy Planning Approach is about marketing and marketing strategy planning. At its essence, marketing strategy planning is about figuring out how to do a superior job of satisfying customers. This author team takes that point of view seriously and believes in practicing what they preach. Instructors and students can trust that this new edition of Essentials of Marketing 14e - and all of the teaching and learning materials that accompany it - will satisfy every instructor and students' needs. Building on Pioneering Strengths This author team pioneered an innovative structure - using the “four Ps” with a managerial approach for the introductory marketing course. It has become one of the most widely used business textbooks ever published because it organises the best ideas about marketing so that readers can both understand and apply them. The unifying focus of these ideas is on how to make marketing decisions that a manager must make in deciding what customers to target and how best to meet their needs. Over many editions of Essentials of Marketing, there have been constant changes in marketing management and the marketing environment. Some of the changes have been dramatic, and others have been subtle. As a result, the authors have made ongoing updates to the text to reflect marketing's best practices and ideas. What's unique about Essentials of Marketing? The four Ps framework, managerial orientation, and strategy planning focus have proven to be foundational pillars that are remarkably robust for supporting new developments in the field and innovations in the text and package. Essentials of Marketing teaches students analytical abilities and how-to-do-it skills that prepare them for success. The author team has deliberately included a variety of examples, explanations, frameworks, models, classification systems, cases, and “how-to-do-it” techniques that relate to our overall framework for marketing strategy planning. Similarly, the online Marketing Plan Coach helps students see how to create marketing plans. Taken together, these items speed the development of “marketing sense” and enable the student to analyze marketing situations and develop marketing plans in a confident and meaningful way. They are practical and they work. The authors emphasise careful integration of special topics. Some textbooks treat “special” topics--like relationship marketing, international marketing, services marketing, marketing and the Internet, marketing for nonprofit organisations, marketing ethics, social issues, and business-to-business marketing--in separate chapters. The authors deliberately avoid doing that because they are convinced that treating such topics separately leads to an unfortunate compartmentalisation of ideas. The comprehensive package of materials gives instructors the flexibility to teach marketing their way - or for the student, the ability to learn marketing their way.

This book offers students and practitioners alike an integrated approach to strategic planning for companies. Marcos Fava Neves presents a new and unique perspective on this critical topic based on three main points: strongly demand-driven decisions that bridge the gap between long- and short-term strategy; a vision of a company as an integrated network, full of relationships that deserve consideration during the planning process; and the introduction of ‘collective-action’ thinking, which raises the prospect for cooperation between competitors. With this clear, comprehensive framework for strategic planning, companies can be sure to navigate today's complex environment and enhance their prospects of success.

This book is a radical piece of counter-intuitive rethinking of the clash of civilizations theory and global politics. In this richly detailed criticism of contemporary politics, Hamid Dabashi argues that after 9/11 we have not seen a new phase in a long running confrontation between Islam and the West, but that such categories have in fact collapsed and exhausted themselves. The West is no longer a unified actor and Islam is ideologically depleted in its confrontation with colonialism. Rather we are seeing the emergence of the US as a lone superpower, and a confrontation between a form of imperial globalized capital and the rising need for a new Islamic theodicy. The combination of political salience and theoretical force makes Islamic Liberation Theology a cornerstone of a whole new generation of thinking about political Islamism and a compelling read for anyone interested in contemporary Islam, current affairs and US foreign policy. Dabashi drives his well-supported and thoroughly documented points steadily forward in an earnest and highly readable style.
