Jamie's first book - the one that started it all. The Naked Chef was born out of the idea to strip down restaurant techniques to their bare essentials and create cool dishes for everyone to cook at home, and get boys back in the kitchen! It's all about having a laugh with fun, delicious food from a young person's perspective. \_\_\_\_\_ Celebrating the 20th anniversary of The Naked Chef Penguin are re-releasing Jamie's first five cookbooks as beautiful Hardback Anniversary Editions. The Naked Chef The Return of the Naked Chef Happy Days with the Naked Chef Jamie's Kitchen Jamie's Dinners \_\_\_\_\_ 'Simply brilliant cooking, and Jamie's recipes are a joy' Nigel Slater 'There is only one Jamie Oliver. Great to watch. Great to cook' Delia Smith

In 1949 Mao Zedong made the historic proclamation that "the Chinese people have stood up". This statement was significant, undoubtedly reflecting the changing nature not only of China's self-perception, but also of its relationship with the rest of the world. In terms of reducing the imperialist presence of the West and Japan within China, and reasserting China's territorial integrity and legal sovereignty to the outside world, Mao and China can indeed be seen to have successfully 'stood up'. However, the development of China's position in the hitherto Western-dominated international system has been more ambiguous. In China Stands Up David Scott examines the PRC's presence in the international system, from 1949 to the present, and also looks forward to the future, asking: How do we define the rise of China? How does China see its role in the world? What shapes China's role? How do international actors view China's role in the international community? Has China risen in any real sense? Engaging with a rich tapestry of sources and imagery, ranging from governmental, media, academic and popular settings, and bridging the divide between history and international relations, this book will appeal to students and scholars of both these fields, as well as those interested in Chinese politics and foreign policy.

This must-read for lovers of Stephen King's The Shining will leave readers breathless as Seda and her family find themselves at the mercy of a murderer in an isolated and snowbound hotel. Get ready for what Kirkus calls "A bloody, wonderfully creepy scare ride." When her mom inherits an old, crumbling mansion, Seda's almost excited to spend the summer there. The grounds are beautiful and it's fun to explore the sprawling house with its creepy rooms and secret passages. Except now her mom wants to renovate, rather than sell the estate—which means they're not going back to the city...or Seda's friends and school. As the days grow shorter, Seda is filled with dread. They're about to be cut off from the outside world, and she's not sure she can handle the solitude or the darkness it brings out in her. Then a group of teens get stranded near the mansion during a blizzard. Seda has no choice but to offer them shelter, even though she knows danger lurks in the dilapidated mansion—and in herself. And as the snow continues to fall, what Seda fears most is about to become her reality...

This last book in the six-volume series from NEXTManga combines cutting-edge illustration with fast-paced storytelling to deliver biblical truth to an ever-changing, postmodern culture. More than 10 million books in over 40 different languages have been distributed worldwide in the series.

Mood mapping simply involves plotting how you feel against your energy levels, to determine your current mood. Dr Liz Miller then gives you the tools you need to lift your low mood, so improving your mental health and wellbeing. Dr Miller developed this technique as a result of her own diagnosis of bipolar disorder (manic depression), and of overcoming it, leading her to seek ways to improve the mental health of others. This innovative book illustrates: \* The Five Keys to Moods: learn to identify the physical or emotional factors that affect your moods \* The Miller Mood Map: learn to visually map your mood to increase self-awareness \* Practical ways to implement change to alleviate low mood Mood mapping is an essential life skill; by giving an innovative perspective to your life, it enables you to be happier, calmer and to bring positivity to your own life and to those around you. 'A gloriously accessible read from a truly unique voice' Mary O'Hara, Guardian 'It's great to have such accessible and positive advice about our moods, which, after all, govern everything we do. I love the idea of MoodMapping' Dr Phil Hammond 'Can help you find calm and take the edge off your anxieties' Evening Standard 'MoodMapping is a fantastic tool for managing your mental health and taking control of your life' Jonathan Naess, Founder of Stand to Reason

Intended as the primary text for introductory courses on medical anthropology, this book integrates human biological data relevant to health and disease with both evolutionary theory and the social environments that more often than not produce major challenges to health and survival. Becausestudents who take this fastest-growing anthropology course come from a variety of disciplines (anthropology, biology, especially pre-med students, and health sciences, especially), the text does not assume anything beyond a basic high-school level familiarity with human biology and anthropology. Theauthors first present basic biological information on a particular health condition and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives. Among the topics covered are nutrition, infectious disease, stress, reproductive health, behavioral disease, aging,race/racism and health, mental health, and healers and healing.
