From an inauspicious beginning at the tiny Left Bank Theatre de Babylone in 1953, followed by bewilderment among American and British audiences, "Waiting for Godot" has become one of the most important and enigmatic plays of the past fifty years and a cornerstone of twentieth-century drama. As Clive Barnes wrote, "Time catches up with genius. . . . "Waiting for Godot" is one of the masterpieces of the century." The story revolves around two seemingly homeless men waiting for someone--or something--named Godot. Vladimir and Estragon wait near a tree, inhabiting a drama spun of their own consciousness. The result is a comical wordplay of poetry, dreamscapes, and nonsense, which has been interpreted as mankind's inexhaustible search for meaning. Beckett's language pioneered an expressionistic minimalism that captured the existential post- World War II Europe. His play remains one of the most magical and beautiful allegories of our time.

As Vladimir and Estragon await the arrival of Godot, they discuss their lives and consider hanging themselves, but choose to wait for Godot instead, in the hope that he can tell them their purpose.

Beckett was one of the greatest and most influential literary figures of this century, and 'Waiting for Godot', now regarded as a classic of 20th-century European literature, is part of the standard repertoire in theatres around the world

Two old tramps wait on a bare stretch of road near a tree for Godot.

"An impressively complete survey of the play in its cultural, theatrical, historical and political contexts." - David Bradby, co-editor of Contemporary Theatre Review Samuel Beckett's Waiting for Godot is not only an indisputably important and influential dramatic text -it is also one of the most significant western cultural landmarks of the twentieth century. Originally written in French, the play first amazed and appalled Parisian theatre-goers and critics before receiving a harshly dismissive initial critical response in Britain in 1955. Its influence since then on the international stage has been significant, impacting on generations of actors, directors and audiences.

This volume offers a comprehensive critical study of Samuel Beckett's first and most renowned dramatic work, Waiting for Godot, which has become one of the most frequently discussed, and influential plays in the history of the theatre. Lawrence Graver discusses the play's background and provides a detailed analysis of its originality and distinction as a landmark of modern theatrical art. He reviews some of the differences between Beckett's original French version and his English translation.

Waiting for Godot follows Endgame and Krapp's Last Tape in this highly praised series of Beckett's notebooks, which show for the first time the extensive revisions made by Beckett during revivals of the play. This volume is in part a facsimile, with transcription and commentary, of the notebook kept by Beckett for Berlin's Schiller-Theater production in 1975. It contains a full set of directorial notes, and discloses, section by section, a total system that works by repetition and analogy, musical rhythm and echo, establishing subtle patterns of sound, movement and gestures.

Texts -- Meaning -- Intellectual contexts -- Dramatic art -- Performance.

In this clear and detailed reading guide, we've done all the hard work for you! Waiting for Godot is one of Samuel Beckett's most famous plays. It shows how Vladimir and Estragon wait for a mysterious character called Godot.
