Management For Public

As an increasing number of individuals go to work in the nonprofit sector, nonprofit managers need support on how best to build their human resource management capacity. They need to know what systems to examine, what questions to ask, and how to ensure they are managing people in a legal manner and as effectively as possible given their particular resource constraints. Important questions include: Do we have a clear philosophy, one that aligns with our nonprofit mission and values and allows us to treat our employees as the professionals they are? How do we select, develop, and retain the best people who will produce high value, high performance work, and how do we do so with limited resources? How do we effectively manage our mix of

implemented. She details how agencies are creating performance-aligned workforces by adopting systems and policies that are driven by their strategic missions. This book covers core topics of personnel courses—including hiring, training, retention, performance, and recognition—but also includes integrated coverage on measuring success through assessment. Further helping readers grasp how HCM works, the book uses original data from the Government Performance Project and incorporates many comparative examples across a wide range of states, plus federal and municipal agencies. Unlike anything else available, Human Capital fills a critical gap for both students and public personnel professionals.

This is the first book to examine the connections between diaspora - the movement, whether forced or voluntary, of a nation or group of people from one homeland to another - and its representations in visual culture. Two foundational articles by Stuart Hall and the painter R.B. Kitaj provide points of departure for an exploration of the meanings of diaspora for cultural identity and artistic practice. A distinguished group of contributors, who include Alan Sinfield, Irit Rogoff, and Eunice Lipton, address the rich complexity of diasporic cultures and art, but with a focus on the visual culture of the Jewish and African diasporas. Individual articles address the Jewish diaspora and visual culture from the 19th century to the present, and work by African American and Afro-Brazilian

an in-depth look at cutting-edge developments beyond standard textbook coverage, to provide a broad understanding of the key management and policy issues facing public and nonprofit HRM today. Original chapters are written expressly for the text by leading public administration scholars, each focusing on specific and often controversial concerns for public personnel management, such as pensions, gender and sexuality, healthcare, unions, and a multi-generational workforce. Now in an extensively revised sixth edition, *Public Personnel Management* presents new, original chapters to examine developments of interest to researchers and practitioners alike, including: remote working, cybersecurity, public service motivation, the abandonment of
