This volume contains selected papers from a December 2006 Dumbarton Oaks symposium that complemented an exhibition of early Bible manuscripts at the Freer Gallery and Sackler Gallery of Art titled "In the Beginning: Bibles before the Year 1000." Speakers were invited to examine the use of the Greek Old Testament as a text, social practice, and cultural experience in the Byzantine Empire. Not only are reminiscences of the Old Testament ubiquitous in Byzantine literature and art, but the Byzantine people also revered and identified with Old Testament role models. The Old Testament connected Byzantium not only with its Christian neighbors but with Jewish and Muslim peoples as well. This widespread phenomenon has never received systematic investigation. The Old Testament in Byzantium considers the manifestations of the holy books in Byzantine manuscript illustration, architecture, and government, as well as in Jewish Bible translations and the construction of Muhammad's character.

The Byzantines used imagery to communicate a wide range of issues. In the context of Iconoclasm - the debate about the legitimacy of religious art conducted between c. AD 730 and 843 - Byzantine authors themselves claimed that visual images could express certain ideas better than words. Vision and Meaning in Ninth-Century Byzantium deals with how such visual communication worked and examines the types of messages that pictures could convey in the aftermath of Iconoclasm. Its focus is on a deluxe manuscript commissioned around 880, a copy of the fourth-century sermons of the Cappadocian church father Gregory of Nazianzus which presented to the Emperor Basil I, founder of the Macedonian dynasty, by one of the greatest scholars Byzantium ever produced, the patriarch Photios. The manuscript was lavishly decorated with gilded initials, elaborate headpieces and a full-page miniature before each of Gregory's sermons. Forty-six of these, including over 200 distinct scenes, survive. Fewer than half however were directly inspired by the homily that they accompany. Instead most function as commentaries on the ninth-century court and carefully deconstructed both provide us with information not available from preserved written sources and perhaps more important show us how visual images communicate differently from words.

Byzantine poetry of the eleventh century is fascinating, yet underexplored terrain. It presents a lively view on contemporary society, is often permeated with wit and elegance, and is concerned with a wide variety of subjects. Only now are we

beginning to perceive the possibilities that this poetry offers for our knowledge of Byzantine culture in general, for the intellectual history of Byzantium, and for the evolution of poetry itself. It is, moreover, sometimes in the most neglected texts that the most fascinating discoveries can be made. This book, the first collaborative book-length study on the topic, takes an important step to fill this gap. It brings together specialists of the period who delve into this poetry with different but complementary objectives in mind, covering the links between art and text, linguistic evolutions, social functionality, contemporary reading attitudes, and the like. The authors aim to give the production of 11th-century verse a place in the Byzantine genre system and in the historic evolution of Byzantine poetry and metrics. As a result, this book will, to use the expression of two important poets of the period, "offer a small taste" of what can be gained from the serious study of this period.
