Who Killed Capitalism? (Global Crash Documentary) | Real Stories Capitalism And The World Economy Capitalism is an economic system where private entities own the factors of production. The four factors are entrepreneurship, capital goods, natural resources, and labor. 1 The owners of capital goods, natural resources, and entrepreneurship exercise control through companies. Individuals own their labor. The only exception is slavery, where someone else owns a person's labor.

Capitalism: Definition, Characteristics, Pros, and Cons

Page of 1 11 Abstract Capitalism is defined here by the universal concept of private property, independent of time and geography, in purely economic terms, free from political ideology. Capitalism thus defined is antithetical to socialism, for which a metric has been introduced by the size of government measured as government total expenditure relative to gross domestic product.
