Norma (Italian:) is a tragedia lirica or opera in two acts by Vincenzo Bellini with libretto by Felice Romani after the play Norma, ou L'infanticide (Norma, or The Infanticide) by Alexandre Soumet.It was first produced at La Scala in Milan on 26 December 1831.. The opera is regarded as a leading example of the bel canto genre, and the soprano prayer "Casta diva" in act 1 is a famous piece.

Just as many people believe Maria Callas is the only Tosca, thanks to her incredible performances of Puccini's aria, "Vissi d'Arte", Dame Joan Sutherland is thought to be the only Norma that matters. She set the bar. Her powerful voice soars effortlessly through the aria's high notes and ornamentation. Beverley Sills (watch on YouTube)

A beautiful performance of Casta Diva

Casta Diva (Maria Callas) - YouTube

"Norma" also features one of the all-time great soprano arias, "Casta diva." As such, the opera is considered a defining role for operatic sopranos, including Maria Callas, whose debut as Norma in 1952 at Covent Garden is considered by many opera aficionados to be one of the best performances of the role to date.

A premier singer and master teacher here tells other singers how to get the most from 151 famous arias selected for their popularity or their greatness from 66 operas, ranging in time and style from Christopher Gluck to Carlisle Floyd, from Mozart to Menotti. "The most memorable thrills in an opera singer's life," according to the author's Introduction, "may easily derive from the great arias in his or her repertoire." This book continues the work Martial Singher has done, in performances, in concerts, and in master classes and lessons, by drawing attention "not only to precise features of text, notes, and markings but also to psychological motivations and emotional impulses, to laughter and tears, to technical skills, to strokes of genius, and even here and there to variations from the original works that have proved to be fortunate." For each aria, the author gives the dramatic and musical context, advice about interpretation, and the lyric—with the original language (if it is not English) and an idiomatic American English translation, in parallel columns. The major operatic traditions—French, German, Italian, Russian, and American—are represented, as are the major voice types—soprano, mezzo-soprano, tenor, baritone, bass-baritone, and bass. The dramatic context is not a mere summary of the plot but is a penetrating and often witty personality sketch of an operatic character in the midst of a situation. The musical context is presented with the dramatic situation in a cleverly integrated way. Suggestions about interpretation, often illustrated with musical notation and phonetic symbols, are interspersed among the author's explication of the music and the action. An overview of Martial Singher's approach—based on fifty years of experience on stage in a hundred roles and in class at four leading conservatories—is presented in his Introduction. As the reader approaches each opera discussed in this book, he or she experiences the feeling of participation in a rehearsal on stage under an urbane though demanding coach and director. The Interpretive Guide will be of value to professional singers as a source of reference or renewed inspiration and a memory refresher, to coaches for checking and broadening personal impressions, to young singers and students for learning, to teachers who have enjoyed less than a half century of experience, and to opera broadcast listeners and telecast viewers who want to understand what goes into the sounds and sights that delight them.
