*This colossal reference book documents the timeless urge to reshape the world, and the machines used to do so from the 1088's to today. From utility tractors and loaders up to the largest diggers and bulldozers, every piece of heavy equipment is listed here by model and manufacturer, making this the most exhaustive book on the world's most hard-working vehicles and machines"--Publisher's description.

A proliferation of lawsuits involving sport utility vehicles, defective tires, medical devices and drugs, and asbestos abounds. Public attention to products liability cases is at an all-time high, and awards routinely run into the millions of dollars. When developing a strategy in this high stakes world, attorneys can't afford to have anything other than the best information and insight into this evolving area of law. Lawyers need practical tools to assess a products liability case's potential and build their approach, and Shapo on the Law of Products Liability provides the tools to give you the winning edge. Through a holistic analysis of the law and its principal developments as witnessed in hundreds of cases, this treatise gives litigators a wide variety of perspectives on potential strategies, and the tools to support those strategies with persuasive arguments. This authoritative two-volume work will enable you to: Assess products liability case potential and build sound litigation strategies Dig deep into products liability law to build creative approaches to litigation Craft a winning case and reap the greatest reward for your clients Find the tools and information to support strategies with persuasive arguments Both federal and state courts contribute a rich mix of decisions to products liability law, which covers both consumer products and occupational hazards. This indispensable resource for the products liability practitioner helps you prepare your case. Is the product defective? Who is liable? What is the manufacturer's responsibility? Who can be sued? What kind of awards may be realized? How might this be defended? Shapo on the Law of Products Liability also includes coverage of: Asbestos litigation Chinese drywall Food and drug Medical devices Design/manufacturing defects claims Punitive damages Discovery rule Up to date analysis and commentary History and background on products liability law Damages Advertising material Packaging Marshall S. Shapo, the Frederic P. Vose Professor at Northwestern University School of Law, is a nationally recognized authority on torts and products liability law.

Describes the forty-year effort of John Harrison to invent the chronometer, the first instrument able to keep accurate time for navigational purposes.

India's history and culture is ancient and dynamic, spanning back to the beginning of human civilization. Beginning with a mysterious culture along the Indus River and in farming communities in the southern lands of India, the history of India is punctuated by constant integration with migrating peoples and with the diverse cultures that surround the country. Placed in the center of Asia, history in India is a crossroads of cultures from China to Europe, as well as the most significant Asian connection with the cultures of Africa. The Historical Dictionary of Ancient India provides information ranging from the earliest Paleolithic cultures in the Indian subcontinent to 1000 CE. The ancient history of this country is related in this book through a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on rulers, bureaucrats, ancient societies, religion, gods, and philosophical ideas.

Application for Employment I refer to the recent death of the Technical Manager at your company and hereby apply for the replacement of the deceased manager. Each time I apply for a job, I get a reply that there is no vacancy but in this case I have caught you red-handed and you have no excuse because I even attended the funeral to be sure that he was truly dead and buried before applying. Attached to my letter is a copy of my CV and his death certificate. Crap CVs is a hilarious compilation of the worst job applications imaginable, including overly-honest cover letters, embarrassing typos, mortifying personal revelations, awkward interview questions, misplaced self-confidence, self-aggrandizing gibberish, blatant truth-twisting and, of course, outright lies.
