A sweeping narrative history of Eastern Europe from the late eighteenth century to today In the 1780s, the Habsburg monarch Joseph II decreed that henceforth German would be the language of his realm. His intention was to forge a unified state from his vast and disparate possessions, but his action had the opposite effect, catalyzing the emergence of competing nationalisms among his Hungarian, Czech, and other subjects, who feared that their languages and cultures would be lost. In this sweeping narrative history of Eastern Europe since the late eighteenth century, John Connelly connects the stories of the region's diverse peoples, telling how, at a profound level, they have a shared understanding of the past. An ancient history of invasion and migration made the region into a cultural landscape of extraordinary variety, a patchwork in which Slovaks, Bosnians, and countless others live shoulder to shoulder and where calls for national autonomy often have had bloody effects among the interwoven ethnicities. Connelly traces the rise of nationalism in Polish, Austro-Hungarian, and Ottoman lands; the creation of new states after the First World War and their later absorption by the Nazi Reich and the Soviet Bloc; the reemergence of democracy and separatist movements after the collapse of communism; and the recent surge of populist politics throughout the region. Because of this common experience of upheaval, East Europeans are people with an acute feeling for the precariousness of history: they know that nations are not eternal, but come and go; sometimes they disappear. From Peoples into Nations tells their story.

This book explores how and why the dangerous yet seemingly durable and stable world order forged during the Cold War collapsed in 1989, and how a new order was improvised out of its ruins. It is an unusual blend of memoir and scholarship that takes us back to the years when the East-West conflict came to a sudden end and a new world was born. In this book, senior officials and opinion leaders from the United States, Russia, Western and Eastern Europe who were directly involved in the decisions of that time describe their considerations, concerns, and pressures. They are joined by scholars who have been able to draw on newly declassified archival sources to revisit this challenging period.

This new Handbook offers a wide-ranging overview of current scholarship on the Cold War, with essays from many leading scholars. The field of Cold War history has consistently been one of the most vibrant in the field of international studies. Recent scholarship has added to our understanding of familiar Cold War events, such as the Korean War, the Cuban Missile Crisis and superpower détente, and shed new light on the importance of ideology, race, modernization, and transnational movements. The Routledge Handbook of the Cold War draws on the wealth of new Cold War scholarship, bringing together essays on a diverse range of topics such as geopolitics, military power and technology and strategy. The chapters also address the importance of non-state actors, such as scientists, human rights activists and the Catholic Church, and examine the importance of development, foreign aid and overseas assistance. The volume is organised into nine parts: Part I: The Early Cold War Part II: Cracks in the Bloc Part III: Decolonization, Imperialism and its Consequences Part IV: The Cold War in the Third World Part V: The Era of Detente Part VI: Human Rights and Non-State Actors Part VII: Nuclear Weapons, Technology and Intelligence Part VIII: Psychological Warfare, Propaganda and Cold War Culture Part IX: The End of the Cold War This new Handbook will be of great interest to all students of Cold War history, international history, foreign policy, security studies and IR in general.

This volume examines the origins and early years of the Cold War in the first comprehensive historical reexamination of the period. A team of leading scholars shows how the conflict evolved from the geopolitical, ideological, economic and sociopolitical environments of the two world wars and interwar period.

NATO's decision to open itself to new members and new missions is one of the most contentious and least understood issues of the post-Cold War world. This book, an unusual and intriguing blend of memoirs and scholarship, takes us back to the decade when those momentous decisions were made. Former senior officials from the United States, Russia, Western and Eastern Europe who were directly involved in the decisions of that time describe their considerations, concerns, and pressures. They are joined by scholars who have been able to draw on newly declassified archival sources to revisit NATO's evolving role in the 1990s.

Ranging from Geneva to Pyongyang, this remarkable book takes readers on an odyssey through one of the most extraordinary forgotten tragedies of the Cold War: the "return" of over 90,000 people, most of them ethnic Koreans, from Japan to North Korea from 1959 onward. Presented to the world as a humanitarian venture and conducted under the supervision of the International Red Cross, the scheme was actually the result of political intrigues involving the governments of Japan, North Korea, the Soviet Union, and the United States. The great majority of the Koreans who journeyed to North Korea in fact originated from the southern part of the Korean peninsula, and many had lived all their lives in Japan. Though most left willingly, persuaded by propaganda that a bright new life awaited them in North Korea, the author draws on recently declassified documents to reveal the covert pressures used to hasten the departure of this unwelcome ethnic minority. For most, their new home proved a place of poverty and hardship; for thousands, it was a place of persecution and death. In rediscovering their extraordinary personal stories, this book also casts new light on the politics of the Cold War and on present-day tensions between North Korea and the rest of the

world.
