This BibleStudy CrossWords puzzle book represents a new concept in solving crossword puzzles. There are no traditional puzzle keys that provide answers to the questions; answers are found by going back to the Bible. The key to each answer is the chapter and verse positioned after the question. This concept helps increase retention of the context and story line and provides a more interesting, fun and beneficial Bible study experience for individuals and groups. The BibleStudy CrossWords concept is a fun game or discussion format for any age individual or group. Individuals set their own pace, possibly doing the puzzles after reading the designated chapters each day. For group study the weekly assignment is reading the designated chapters more than once. In class, teams of two or more are separated and consult privately before answering the questions and filling-in answers as best they can. The team with the most correct answers wins. Afterwards, a class discussion reviews the context of the most difficult questions.
