Reading Level: 3-4 Interest Level: 6-12

This text offers a wealth of practical and proven strategies for successfully including students with disabilities in general education classrooms. The text provides targeted strategies for the subject and skill areas, as well as special needs of individual students, with a strong focus on instructional strategies applied to specific student need areas. An overall theme of “effective, differentiated instruction” is infused throughout the text, relating to those practices that are most closely aligned with academic success. The text is unique in its three-part coverage of 1). the fundamentals of teaching students with special needs, 2). effective general teaching practices, and 3). inclusive practices in specific subject areas. With a strong focus on instructional strategies and how they are applied to specific student need areas, the text goes further by featuring more specific strategies than any other text, and extensive information about the most effective strategies available, and when and how to use them.. This strong focus instructs pre-service teachers and other education personnel on how they can implement in the classroom specific strategies to address a very wide range of grade levels, skill levels, academic content areas; and extensive and very specific information on strategies teachers can use in the areas of most concern to them, e.g., behavior management, handling student confrontations, promoting literacy, memory for school content, motivation to learn, maintaining student attention, adapting assessment and improving test scores, and specific strategies for adapting specific lessons in math, science, social studies, and career and technical education. Specifically written for pre-service or in-service special education teachers who will work with general education teachers in K-12 classrooms, the text is also relevant for school psychologists, counselors, support staff, and other school personnel interested in helping all students succeed in the classroom.

Presents practical math applications This straightforward, easy-to-understand program provides students of mixed abilities with key math concepts essential for successful adult living. From buying groceries to budgeting for housing, education, and travel, the simply stated subject matter delivered in a manageable format with a controlled reading level makes content accessible to all students. Students gain practical math competence through real-world examples in the areas of money management, banking, credit-card math, career choices, consumerism, jobs, and everyday living. Basic skills lessons review and practice mathematical concepts essential to everyday life. Lexile Level 700 Reading Level 3-4 Interest Level 6-12

Success in Math helps students with varying learning styles master basic math concepts and prepares them for success on math competency tests. Student Texts This five-book softcover series breaks down core math concepts into short, manageable lessons that assume little background knowledge and are introduced in real-life context. In addition, chapter opener vocabulary lists and a glossary prove valuable for English language learners with below- or at-level math skills. Teacher's resources include answer Keys, as well as error analysis notes, alternative strategies for varied learning styles, problem-solving strategies, ESL notes, cooperative learning strategies, and reproducible masters are provided. Reading Level: 6-7 Interest Level: 8-12

Explains how field research contributes value to political science by exploring scholars' experiences, detailing exemplary practices, and asserting key principles.
