gore cinema in the autumn of 1982, Creepshow is here reassessed by Simon Brown, who examines the making and release of the film and its legacy through a comic book adaptation and two sequels. His analysis focuses on the key influences

on the film, not just Romero and King, but also the anthology horrors of Amicus Productions, body horror cinema, and the special make up effects of Tom Savini, the relationship between horror and humor, and most notably the tradition

significant example of the portmanteau horror film, of the blending of horror and comedy, and finally, decades before the career of Zack Snyder (Watchmen, Man of Steel), of attempting to recreate a comic book aesthetic on the big screen.
