Dollhouses and other miniature scale buildings often come as kits or completed structures made from medium density fiberboard (MDF) or Baltic birch plywood. Both materials give off some gasses, so they should never be left unfinished. Plywood structures are lighter and can be built to be dismantled or added on to at a later date.

Designing Buildings Wiki is the only industry-wide, cross-discipline forum for finding and sharing information. Anyone can create articles about subjects they know and anyone can find articles about subjects they don't.

Designing Buildings Wiki
Building - Designing Buildings Wiki
- Share your construction industry knowledge. The word 'building' is commonly considered to refer to an enclosure within which activities can be carried out. It is a structure, usually consisting of a roof, walls, floors and openings such as doors and windows that is generally (but not always) positioned permanently in one location.

Supervisor: We offer our design services and then an experienced construction supervisor to help oversee your crew in building your new mini golf dream.

Building mini golf holes and walkways is not the same as sidewalks, patios, roads, etc. Mini golf is part science and part art and therefore many of our clients prefer the oversight of an experienced supervisor. This can be for any desired time period.
