We've got plenty more great activities for helping children have fun with numbers in our Maths Section.

Dice Games for Kids - Make Maths exciting! - Fun Learning

Variation 2: My favorite way to play math games with playing cards or with dice is to give each set of partners a "more/less" coin that I make ahead of time. This is a simple plastic or foam circle and I attach a sticker (or you could use sharpie) on one side with the word "more" and the other side with the word "less".

Math Games Using Dice – The Teacher Next Door

4 of the same number. Scores total value of those 4 dice. Full House: A 3-of-a-kind and 2-of-a-kind. Scores 25 points: 4 Straight: 4 numbers in a row (any order). Scores 30 points: 5 Straight: 5 numbers in a row (any order). Scores 40 points: The Yacht: 5 of a kind. Scores 50 points: Choice: No pattern needed. Scores total value of all dice.

Play Yacht Dice Game - Math is Fun

Math Dice is a fast, fun game of mental math that helps students around the globe learn the power and flexibility of numbers. Originally called Dice Mania, Math Dice was invented for a school project by 6th grader, Sam Ritchie. To play, roll the two 12-sided dice and multiply the numbers together to get the target number.

Learning With Math Dice - ThinkFun

Dice games are fun! They are also one of the oldest of all kinds of games: there are records of dice being played over 5,000 years ago! Dice have been found in Egyptian tombs and were very popular in Roman times. Dice games are versatile. They can be based on luck, or on skill and planning.

Dice Games for Kids - Activity Village

The Fast, Fun Dice Game of Mental Math. Math becomes more fun when you think on the fly! Roll the two 12-sided target dice and multiply them to get a target number.
