So Apple, next time just include the User Guide, pre-installed on all iPad devices. I'd even recommend that you open the User Guide as a user does their first login, there should be no hunting. Or, better yet, a series of Videos to demonstrate how to use this fine touch device, because words never caption the simplicity that a video does.

Most iPad users are now on iOS 9, so if you are unsure of your version, download the iOS 9 manual. These manuals are geared more towards the operating system than the actual device. If you haven't updated the operating system, find your iPad in the list and use the manual appropriate for that model.
