This problem-oriented book provides solutions to the common problems in two major areas of Electrical Engineering discipline such as electric machines and electric drives (with power electronics linking them) under a single cover. It serves as a supplement to textbooks on the subject. The book includes as many as 163 well-graded solved problems, covering topics such as transformer, dc machine, ac machines, induction (motor) and synchronous types, special motors, power electronics and ...

The Electrical Machines & Drives (EMD) group has helped to achieve many synergies in terms of the demand for higher power densities, increased energy efficiency, improved reliability and reduced maintenance, and greater functionality. The expertise, research and design strengths of the EMD Group are demonstrated by the research awards the Group have won which have been in excess of £42m over the last ten years (2009–19) from a mix of government funded research and industry.

Chinese car maker MG has announced the new MG ZS EV will be priced at \$43,990 drive-away. This is actually cheaper than the \$46,490 charged for pre-orders earlier this year.

MG ZS EV is Australia's cheapest electric car. The GT Electric is based on the Alfa Romeo GT, a car also known among Alfa Romeo fans as 105 and 115 Series. Created over a shortened Giulia body, it was built from 1963 until 1977.
