Under an EPC contract a contractor is obliged to deliver a complete facility to a developer who need only turn a key to start operating the facility, hence EPC contracts are sometimes called turnkey construction contracts.

Engineering, procurement, and construction - Wikipedia

Engineering, procurement, and construction (EPC) contracts, sometimes called turnkey contracts are similar to design and build contracts, in that there is a single contract for the design and construction of the project, but generally with an EPC contract, the client has less say over the design of the project and the contractor takes more risk . On a design and build project, the client may produce an outline design upon which tenders are sought.
