by Panorama Consulting Group | Apr 23, 2014. Determining the best ERP implementation strategy can be tricky. It sounds easy enough: define what you need, design and configure the system, run some testing, train the employees and boom — you 're in business. Most ERP vendors, system integrators and less experienced ERP consultants may make enterprise software initiatives sound this easy, but as anyone who has been involved in ERP implementations in the past can attest, this is typically not ...
