~~Ultimate Guide to
Exploration in EVE Online —
Odeale~~

Exploration in Eve Online. As a new player, one of the first things you can try out in Eve Online is exploration. Exploration is the act of searching for, scanning down, entering and completing cosmic signature sites. Getting started with exploration is easy enough.

but to become a successful explorer you need to understand the differences between the cosmic signatures, how to scan them down and what skills will help you do that.

~~Eve Online Exploration Guide
2019 - Saarith.com~~

Exploration in EVE involves using scanning probes to locate Cosmic Signatures in space which may contain hackable containers with items inside, resources like gas clouds or ore, wormholes to distant star systems, or collections of NPCs which may drop rare items. As a profession, exploration can be profitable and engaging,

University Wiki~~

Eve University has an excellent guide about safe spots and how to make them. Map your directional scanner (dscan) refresh button to a hotkey. In wormholes, you should be refreshing dscan at LEAST twice a minute and preferably about every 5 seconds during all the time you are uncloaked. This is not exaggerating.

The Revelations expansion (codename Kali) introduces proper exploration to Eve. Over 250 individual exploration sites have been created and added to the game, offering a wide variety of content. Each site is unique, but there are four broad categories they fall into - combat sites, profession sites, mining sites and gas cloud sites.
