This book is for working film/TV professionals and students alike. If you're a line producer, production manager, production supervisor, assistant director or production coordinator--the book has everything you'll need (including all the forms, contracts, releases and checklists) to set up and run a production--from finding a production office to turning over delivery elements. Even if you know what you're doing, you will be thrilled to find everything you need in one place. If you're not already working in film production, but think you'd like to be, read the book -- and then decide. If you choose to pursue this career path, you'll know what to expect, you'll be prepared, and you'll be ten steps ahead of everyone else just starting out. New topics and information in the fourth edition include: \* Low-budget independent films, including documentaries and shorts \* Information specific to television production and commercials \* The industry's commitment to go green and how to do it \* Coverage of new travel and shipping regulations \* Updated information on scheduling, budgeting, deal memos, music clearances, communications, digital production, and new forms throughout

Filming is fun! Whether you have a real video camera or a mobile device with video, technology is not so important. The focus is on the idea. But how does your idea become a script? And how can you make your recordings exciting? What should you watch out for when taking the camera? What is important when editing your film material? The book begins with a short review of the film history of the last 40 years. What has changed in the current video features compared to the past? What can you do to get better pictures with your mobile device? Afterwards it's all about planning your own project. You got an idea. So what happens next? How do you turn your idea into a storyboard or script? In the next section we will talk about the filming and what you should pay attention to. In the end, there are tips and tricks for editing the film and what to consider when publishing on the Internet. The book is not a technical reference work. Rather it is an idea guide, which should give the filmmaker food for thought. What is possible in filming and how can you design your scenes creatively? You will find film tips, examples and exercises for your own detective stories, comedy films, holiday reports, learning videos and school projects. From the first idea to the finished film. You also get lots of ideas about my 'special area', the thriller shoot. Through my personal pool of ideas you will surely get new ideas for your next film project - even if this isn't a feature film at all.

Designed for people who want to tell a story their way. The Complete Idiot's Guide to Independent Filmmaking explains everything a budding auteur needs to know, from literary development and financial and organizational pre-production to principal photography production, post-production assembly, exhibition and distribution, and more. The advent of desktop editing and a wide range of consumer cameras enable the average person to create a film studio' at home. A great 'textbook' for novice filmmakers, whether film students or on-their-own auteurs. The proliferation of film festivals around the world, many of which encourage submissions from 'amateur' filmmakers, shows that there are countless filmmakers who aren't learning the ropes in school. Author has terrific credentials and has a feature-length script in development in Hollywood.
