completion of this Satellite Communications Training course, the participants will:
How satellite communications relates to other forms of wireless systems that are
used to provide one-way broadcasting and two-way interactive services, especially
those delivered through the global Internet

Satellite Communications Training Fundamentals - ENO INSTITUTE
The telemetry, tracking, and command (TT&C) subsystem performs several routine
functions aboard a spacecraft. the telemetry or "telemetering" function could be
interpreted as "measurement at a distance". specifically, it refers to the over all
operation of generating an electrical signal proportional to the quantity being
measured, and encoding and transmitting this to a distant station, which for
satellite is one of the earth stations, which for the satellite is one of the earth
stations.
