Renowned for her practice's exemplary results and low intervention rates, Ina May Gaskin has gained international notoriety for promoting natural birth. She is a much-beloved leader of a movement that seeks to stop the hyper-medicalization of birth—which has led to nearly a third of hospital births in America to be cesarean sections—and renew confidence in a woman's natural ability to birth. Upbeat and informative, Gaskin asserts that the way in which women become mothers is a women's rights issue, and it is perhaps the act that most powerfully exhibits what it is to be instinctually human. Birth Matters is a spirited manifesta showing us how to trust women, value birth, and reconcile modern life with a process as old as our species.

A revised and updated edition of the classic handbook for women seeking a safe, organic, eco-friendly, and natural pregnancy, featuring an integrative-based approach with new medical, herbal, and nutritional information. Addressing women's health from conception to birth, Dr. Romm describes herbs that can promote and maintain a healthy pregnancy, and allays such familiar concerns as anxiety, fatigue, morning sickness, and stretch marks. She also discusses the components of a healthy diet, with an emphasis on natural foods. New to this edition is integrative health advice based on Dr. Romm's new credentials as a Yale-trained physician, combined with her twenty years of experience as a midwife and herbalist.

The national C-section rate is at an all-time high of 31 percent. Are all these C-sections necessary, or are some of them done simply for the sake of

convenience? Inductions seem to be the norm, but are they always needed? Today, expectant mothers are often left feeling powerless, as their instincts are replaced by drugs and routine medical procedures. What you are about to discover is that you have a choice, and you have the power to plan the kind of birth that's right for you—whether it is at a birth center, a hospital, or at home. In *YOUR BEST BIRTH*, internationally known advocates of informed choice Ricki Lake and Abby Epstein inspire women to take back the birth experience, with essential advice on:

- Positive and negative effects of epidurals, Pitocin, and other drugs and interventions
- Inducing vs. allowing your labor to progress naturally
- The truth behind our country's staggering C-section rate
- Assembling your birth team and creating your birth plan.

With chapters such as "Obstetricians: Finding Dr. Right," "Epidurals: You Haven't Got Time for the Pain," and "Electronic Monitors: Reading between the Lines," Lake and Epstein will encourage you to consider whatever your doctor, mother, and best friend may suggest in a new light. The book also includes inspiring birth stories, including those from well-known personalities, such as Laila Ali and Cindy Crawford. Packed with crucial advice from childbirth professionals, and delivered in a down-to-earth, engaging voice, *YOUR BEST BIRTH* is sure to renew your confidence and put the control back where it belongs: with parents-to-be! "Abby Epstein and Ricki Lake have taken a wonderful and constructive approach to ensuring an optimal birthing experience. Their language creates a 'climate of confidence' for pregnant women and their families, who must make key decisions about where, how and with whom to give birth in a health care system often unresponsive to our needs. This book is like a good friend giving wise counsel." --Judy Norsigian, co-editor of *Our Bodies, Ourselves: Pregnancy and Birth* and Executive Director, *Our Bodies Ourselves*
