Instead of the Thorn is one of Georgette Heyer's early novels. It follows Elizabeth Arden a young woman raised by a cold, distant father and a prim, proper aunt. Unsurprisingly Elizabeth comes of age with no sense of how to make her way in the world or what will make her happy.

Instead of the Thorn was Georgette Heyer's first novel with a contemporary setting. Of course, she wrote it in 1922 or so, so that makes it a period piece for our purposes. In fact, it's a year or two before the current season of *Downton Abbey* is set, though the characters are middle-class and the plot is darker in some ways.

Wikipedia

Georgette Heyer's first contemporary novel, *Instead of the Thorn* was published in 1923, when she was just twenty-one years of age. This book deals with Elizabeth Arden, a naïve teenager who is married to the wealthy and erudite Stephen Ramsay, a writer of some renown, and who discovers that her strict upbringing, her youth, her rampant insecurities and dislike of sex make her unsuited to her new role as wife to a demanding and inconsiderate man.
