International Trade And Business Law  
International trade law is the set of laws and agreements that govern commerce between countries. International trade laws create the rules that countries and businesses must follow in order to do business across borders. Lawyers who work in the field help create international agreements.

A study of economics and the law gives an attorney an analytical framework for considering legal and economic aspects of a particular policy as it relates to international commercial law. International business law is almost always related to trade or commerce in one way or another. Considering the economic impact of a specific transaction or a policy's effect on transactions is an important part of this practice area.
