Download PDF Java: The Complete Reference, Eleventh Edition

A step-by-step guide by the famous computing author Herbert Schildt, Java: The Complete Reference, Seventh Edition is an introductory book to Java. Whether a person is a rookie or a pro programmer, this book is for everyone. Introducing the readers to Java from the scratch to its importance and contribution to the web, the book has it all. The book is a gateway to the entire Java language ...

Buy Java: The Complete Reference, Seventh Edition (Old ...

In conclusion, this book isn't a reference but an interesting and definitely worthy introduction to Java, provided the reader skips some older, less relevant sections, then complete their learning with other books with a more modern style approach on GUI and functional programming, and possibly on performance considerations, since those topics are not the strong point of this "Complete Reference".
