John Berger opens his seminal Ways of Seeing with an observation that seems counterintuitive, considering its status as a written text: that, as we inhabit the world, we constantly perceive it, only later naming the things we see, making language insufficient for conveying the way we see the world.

"Seeing comes before words. The child looks and recognizes before it can speak. "But there is also another sense in which seeing comes before words. It is seeing which establishes our place in the surrounding world; we explain that world with words, but word can never undo the fact that we are surrounded by it. The relation between what we see and what we know is never settled." John Berger's *Ways of Seeing* is one of the most stimulating and the most influential books on art in any language. Ways of Seeing is a key art-historical work that continues to provoke widespread debate. It is comprised of seven different essays, three of which are pictorial and the other containing texts and images. Berger first examines the relationship between seeing and knowing, discussing how our assumptions affect how we see a painting. He moves on to consider the role of women in artwork, particularly regarding the female nude. The third essay deals with oil painting looking at the relationship between subjects and ownership. Finally, Berger addresses the idea of ownership in a consumerist society, discussing the power of imagery in advertising, with particular regards to photography.

'Language is a body, a living creature ... and this creature's home is the inarticulate as well as the articulate'. John Berger's work has revolutionized the way we understand visual language. In this new book he writes about language itself, and how it relates to thought, art, song, storytelling and political discourse today. Also containing Berger's own drawings, notes, memories and reflections on everything from Albert Camus to global capitalism, *Confabulations* takes us to what is 'true, essential and urgent'.

As a novelist, art critic, and cultural historian, Booker Prize-winning author John Berger is a writer of dazzling eloquence and arresting insight whose work amounts to a subtle, powerful critique of the canons of our civilization. In *About Looking* he explores our role as observers to reveal new layers of meaning in what we see. How do the animals we look at in zoos remind us of a relationship between man and beast all but lost in the twentieth century? What is it about looking at war photographs that doubles their already potent violence? How do the nudes of Rodin betray the threats to his authority and potency posed by clay and flesh? And how does solitude inform the art of Giacometti? In asking these and other questions, Berger quietly -- but fundamentally -- alters the vision of anyone who reads his work.

"There are no photographs which can be denied. All photographs have the status of fact. What is to be examined is in what way photography can and cannot give meaning to facts." With these words, two of our most thoughtful and eloquent interrogators of the visual offer a singular meditation on the ambiguities of what is seemingly our straightforward art form. As constructed by John Berger and the renowned Swiss

photographer Jean Mohr, that theory includes images as well as words; not only analysis, but anecdote and memoir. Another Way of Telling explores the tension between the photographer and the photographed, between the picture and its viewers, between the filmed moment and the memories that it so resembles. Combining the moral vision of the critic and the practical engagement of the photographer, Berger and Mohr have produced a work that expands the frontiers of criticism first charged by Walter Benjamin, Roland Barthes, and Susan Sontag.

The writing career of Booker Prize winner John Berger—poet, storyteller, playwright, and essayist—has yielded some of the most original and compelling examinations of art and life of the past half century. In this essential volume, Geoff Dyer has brought together a rich selection of many of Berger's seminal essays. Berger's insights make it impossible to look at a painting, watch a film, or even visit a zoo in quite the same way again. The vast range of subjects he addresses, the lean beauty of his prose, and the keenness of his anger against injustice move us to view the world with a new lens of awareness. Whether he is discussing the singleminded intensity of Picasso's Guernica, the parallel violence and alienation in the art of Francis Bacon and Walt Disney, or the enigmatic silence of his own mother, what binds these pieces throughout is the depth and fury of Berger's passion, challenging us to participate, to protest, and above all, to see.

A major new work from the world's leading writer on art Landscapes, the companion volume to John Berger's highly acclaimed Portraits, explores what art tells us about ourselves. "Berger's work is an invitation to reimagine; to see in different ways," writes Tom Overton in the introduction to this volume. As a master storyteller and thinker John Berger challenges readers to rethink their every assumption about the role of creativity in our lives. In this brilliant collection of diverse pieces—essays, short stories, poems, translations—which spans a lifetime's engagement with art, John Berger reveals how he came to his own unique way of seeing. He pays homage to the writers and thinkers who influenced him, such as Walter Benjamin, Rosa Luxemburg and Bertolt Brecht. His expansive perspective takes in artistic movements and individual artists—from the Renaissance to the present—while never neglecting the social and political context of their creation. Berger pushes at the limits of art writing, demonstrating beautifully how his artist's eye makes him a storyteller in these essays, rather than a critic. With "landscape" as an animating, liberating metaphor rather than a rigid definition, this collection surveys the aesthetic landscapes that have informed, challenged and nourished John Berger's understanding of the world. Landscapes—alongside Portraits—completes a tour through the history of art that will be an intellectual benchmark for many years to come.

Those born since the digital revolution, seem to have the hardest time re-imagining the role of photography in the world today. Thinking of photography as a visual language is the approach this book adopts to addresses this challenge. Considering photography in this way develops the metaphor of 'learning a language' when attempting to explain what photography can be, and what it can give a student in transferable creative and life skills. This begins with challenging the pre-conception that successful photography is defined by the successful single image or 'the good photograph'. The book emphasises the central role of narrative and visual storytelling through a technique of 'photosketching' to develop the building blocks of visual creativity and ultimately to craft successful bodies of photographic work. New Ways of Seeing explains how to both learn and teach photography as a visual language, appropriate for both professionals and students working today.

The first intellectual biography of the life and work of John Berger John Berger was one of the most influential thinkers and writers of postwar Europe. As a novelist, he won the Booker prize in 1972, donating half his prize money to the Black Panthers. As a TV presenter, he changed the way we looked at art with *Ways of Seeing*. As a storyteller and political activist, he defended the rights and dignity of workers, migrants, and the oppressed around the world. "Far from dragging politics into art," he wrote in 1953, "art has dragged me into politics." He remained a revolutionary up to his death in January 2017. Built around a series of watersheds, at once personal and historical, *A Writer of Our Time* traces Berger's development from his roots as a postwar art student and polemicist in the Cold War battles of 1950s London, through the heady days of the 1960s—when the revolutions were not only political but sexual and artistic—to Berger's reinvention as a rural storyteller and the long hangover that followed the rise and fall of the New Left. Drawing on first-hand, unpublished interviews and archival sources only recently made available, Joshua Sperling digs beneath the moments of controversy to reveal a figure of remarkable complexity and resilience. The portrait that emerges is of a cultural innovator as celebrated as he was often misunderstood, and a writer increasingly driven as much by what he loved as by what he opposed. *A Writer of Our Time* brings the many faces of John Berger together, repatriating one of our great minds to the intellectual dramas of his and our time.
