International Journal of Theoretical and Applied Mathematics (IJTAM) is a peer-reviewed journal on all areas of theoretical and applied mathematics and methods to solve problems in engineering, natural sciences, and business through mathematical, computational and statistical methods. Topics of interest include, but are not limited to: pure mathematics, applied sciences, approximation theory, computational simulation, control, differential equations, dynamics, inverse problems, modeling ...

About: International Journal of Theoretical and Applied ...

Bookmark File PDF Journal Of Theoretical Mathematics

Theoretical and Mathematical Physics is a peer reviewed journal. We use a single blind peer review format, double or more blind in cases of problems. Our team of reviewers includes over 270 experts from many countries (Italy, Brazil, UK, France, USA, etc.).

(IJAMTP) publishes papers in the fields of applied mathematics and theoretical physics; these two fields are vital for basic sciences and engineering. The journal presents original papers, reviews and letters. The primary goal of this journal is to advance the understanding of applications in mathematics and physics by introducing mathematical techniques and applications to mathematics in other areas of science and engineering.

Journal Of Theoretical Mathematics And Applications

The primary aim of this journal is the dissemination of important mathematical work which has relevance to engineering. It will also attract special attention to a wide number of researchers for theoretical mathematical science and mathematical computing problems. It will cover all primary areas such as: Applied mathematics; Mathematical physics
