The reason that the Justisse Method is my favorite method of Natural Family Planning/Fertility Awareness is that it combines everything I love about the Creighton Model and STM. It uses the exact same mucus charting methods as the Creighton model, right down to the same abbreviations. Except that it gets even more specific!

The Justisse Method (JM) is the most effective secular standardized method for fertility awareness. Quite simply, this book is the best available on the market in how it describes a solidly effective methodology in a straightforward manner that is useful for all women regardless of their menstrual cycle health or history. The author's more than thirty years of experience in the field of fertility awareness and body literacy education shows through in the simple, elegant and effective way in which she has designed this user's guide for the reader's benefit.

Healthy menstrual cycles are the 5th vital sign of a woman's health. If a woman's menstrual cycle is not healthy she is not healthy. Her health depends on regular ovulation and true menstruation. Stopping the use of hormonal contraceptives and making the necessary changes to return to regular ovulation and healthy menstrual cycling, is one of the most important things a woman can do for her health, short term and long term. This concise, clinical-based guide teaches women and their care providers how to restore menstrual cycle health (fertility) and endocrine balance after stopping the use of hormonal contraceptives. Included are holistic and nutritional suggestions to support menstrual cycle health, including non-pharmaceutical approaches to managing difficult periods and restoring nutritional status. Included are narratives of various women's experiences when they stop using hormonal contraceptives. This is a companion book to "Justisse Method Fertility Awareness and Body Literacy: A User's Guide" Why A Book About Coming Off the Pill? WE SEE WOMEN every day in our clinic that experience reproductive and other health problems while on and after discontinuing the birth control pill or other forms of hormonal contraception. They report finding few, if any, resources to help them deal with the physiological upheaval these drugs create in their bodies. Many women also report using hormonal contraception to deal with very difficult periods or other hormonal disorders. They report finding little support or information for using non-hormonal forms of birth control or ways to deal with hormonal disorders without the use of drugs. The intention of this book is to share with women some of those hard to find bits of information; information that we use in our clinical practices every day.

Millions of healthy women take a powerful medication every day from their mid-teens to menopause - the Pill - but few know how this drug works or the potential side effects. Contrary to cultural myth, the birth-control pill impacts on every organ and function of the body, and yet most women do not even think of it as a drug. Depression, anxiety, paranoia, rage, panic attacks - just a few of the effects of the Pill on half of the over 80% of women who pop these tablets during their lifetimes. When the Pill was released, it was thought that women would not submit to taking a medication each day when they were not sick. Now the Pill is making women sick. However, there are a growing number of women looking for non-hormonal alternatives for preventing pregnancy. In a bid to spark the backlash against hormonal contraceptives, this book asks: Why can't we criticize the Pill?

"I wish I'd known that when I was pregnant!" It's a feeling all parents know: wanting to keep our children safe and thriving in an ever-changing world. What happens during pregnancy sets the stage for the rest of a child's life, so the Green Mama is here to help make this period healthier, happier, and safer for both mother-to-be and baby. Swollen ankles? Difficult birth? Postpartum depression? Most expectant parents think, It won't happen to me! But from conception through to birth, families today aren't getting what they expect — or expecting what they get. The Green Mama explores a variety of sources, from the latest scientific and medical research and advice to traditional wisdom, to find out what issues, decisions, and avoidable dangers have the greatest impact on our children's health. She brings together this combined wisdom to demystify epigenetics, the microbiome, a healthy pregnancy diet, toxin-free living, pregnancy exercises, herbal remedies, natural birth, healthy postpartum care, and many of the other mysteries of modern birth and parenting. Through gentle guidance, humour, and a trove of specific advice from dependable sources, Green Mama-to-Be is the essential guide for today's mothers- and fathers-to-be.

Blessed Events explores how women who give birth at home use religion to make sense of their births and in turn draw on their birthing experiences to bring meaning to their lives and families. Pamela Klassen introduces a surprisingly diverse group of women, in their own words, while also setting their birth stories within wider social, political, and economic contexts. In doing so, she emerges with a study that disrupts conventional views of both childbirth and religion by blurring assumed divisions between conservative and feminist women and by taking childbirth seriously as a religious act. Most American women who have a choice give birth in a hospital and request pain medication. Yet enough women choose and advocate unmedicated home birth--and do so for carefully articulated reasons, social resistance among them--to constitute a movement. Klassen investigates why women whose religious affiliations range from Old Order Amish to Reform Judaism to goddess-centered spirituality defy majority opinion, the medical establishment, and sometimes the law to have their babies at home. In considering their interpretations--including their critiques of the dominant medical model of childbirth and their views on labor pain--she examines the kinds of agency afforded to or denied women as they derive religious meanings from childbirth. Throughout, she identifies tensions and affinities between feminist and traditionalist appraisals of the symbolic meaning of birth and the power of women. What does home birth--a woman-centered movement working to return birth to women's control--mean in practice for women's gender and religious identities? Is this supreme valuing of procreation and motherhood constraining, or does it open up new realms of cultural and social power for women? By asking these questions while remaining cognizant of religion's significance, Blessed Events challenges both feminist and traditionalist accounts of childbearing while broadening our understanding of how religion is "lived" in contemporary America.

Unprecedented insight into the feminine body and on using its natural rhythms to heal, find balance and reconnect to our emotions. Your power lies in the rhythm of your menstrual cycle. Connect with your body on a deeper level to find healing, balance and wholeness. The menstrual cycle is a vital and vitalizing system in the female body, yet our understanding of and respect for this process is both limited and distorted. Few women really know about the physiology of their cycle, and many do not see it as an integral part of their health and wellbeing, let alone as a potential guide to emotional and spiritual empowerment. Wild Power tells a radical new story about feminine power. It reveals: · Your inner architecture and the path to power that is encoded in your body · How to tune in to the rhythm and changes of your menstrual cycle to realize the fullness and beauty of your authority · Three 'maps' to guide you through the energies, tasks and challenges presented as you journey through each cycle · How to work with your Inner Seasons to pace your energy, calm your nervous system and gain insight into your overall wellbeing · How to work with your cycle to channel spiritual forces, affirm your expression in the world and achieve a deep sense of belonging Written with humour, tenderness and practicality, and packed with women's stories and quotes throughout, Wild Power will restore women to wholeness and reinstate the full majesty and grace of the Feminine.

"Chris Bobel is a careful ethnographer, respectful of research participants, and while she clearly takes a stand on menstrual activism, she handily defends her proposition that feminism is 'finding its balance between reliving its past and creating its future.' Bobel's work, which includes incisive analysis of how third-wave, activists incorporate and update tactics and strategies of the second wave, will be a welcome addition to the scholarship of feminism." Elizabeth Kissling, author of Capitalizing on the Curse: The Business of Menstruation New Blood offers a fresh interdisciplinary look at feminism-in-flux. For over three decades, menstrual activists have questioned the safety and necessity of feminine care products while contesting menstruation as a deeply entrenched taboo. Chris Bobel shows how a little-known yet enduring force in the feminist health, environmental, and consumer rights movements lays bare tensions between second and third-wave feminisms and reveals a complicated story of continuity and change within the women's movement. Bobel focuses on debates central to feminist thought (including the utility of the category "gender") and the challenges to building an inclusive feminist movement. Filled with personal narratives, playful visuals, and original humor, New Blood reveals middle-aged progressives communing in Red Tents, urban punks and artists "culture jamming" commercial menstrual products in their zines and sketch comedy, queer anarchists practicing DIY health care, African American health educators espousing "holistic womb health," and hopeful mothers refusing to pass on the shame to their pubescent daughters. With verve and conviction, Bobel illuminates today's feminism-on-the-ground---indisputably vibrant, contentious, and ever-dynamic.
