For example, Kouzes and Posner identify what they call "five leadership practices common to successful leaders" and then suggest ten "behavioral commitments" among those leaders studied. Here they are:  
Practice: Challenge the process  
Commitments: (1) Search for opportunities and (2) Experiment and take risks  
Practice: Inspire a shared vision

Challenge introduced the Leadership Participation Inventory model of Transformational leadership. They conducted their research on leadership over 20 years and concluded that leadership is more of behavior and practice rather than just a matter of personality as suggested by earlier leadership theories.

James Kouzes and Barry Posner offered a notable version of a functional leadership model in their book, *The Leadership Challenge* (1987). It is more prescriptive than Adair's model and aimed more at high-level leaders like CEOs, but it's a significant contribution to the thinking on effective leadership. Kouzes and Posner's earlier Trait-Theory leadership model, which led them to develop their Five Leadership Practices model, is
