Leap of Faith is a thoroughly readable and enjoyable autobiography of Jordan's Queen Noor. I learned a lot from reading it and enjoyed the view it gave me of the Noor and the king. It was, however extremely biased in favor of the King. He could do and did no wrong from the Queen's point of view.

While Leap of Faith is primarily the author Queen Noor's memoir and a tribute to her late husband King Hussein of Jordan, what I like most about this book is the author's explanations about the history of conflicts in the "Middle East" region. I usually consider the Israel - Palestine conflict "too daunting" to think about.

Born in 1951 to a distinguished Arab-American family, Lisa Najeeb Halaby became the fourth wife of King Hussein at age 27. With her husband being not only Jordan's monarch but the spiritual leader of all Muslims, Lisa was unsure what her role would be. This moving memoir provides a timely look at one woman's story against a backdrop of 30 turbulent years: the displacement of over 1 million Palestinians by the creation of Israel, King Hussein's frustrated efforts for peace, and the effect of Saddam Hussein and the Gulf War on Jordan and the royal family. Queen Noor offers intimate new glimpses of King Hussein, Saddam Hussein, Queen Elizabeth, Arafat, and many other world leaders.

Born into a distinguished Arab-American family and raised amid privilege, Lisa Halaby was in the first co-educational freshman class at Princeton, graduating in 1974 with a degree in architecture and urban planning. Then, in 1976, she was introduced, on an airport runway, to King Hussein of Jordan, a direct descendent of the prophet Muhammed. In less than two years, she was his wife, Noor al-Hussein, Queen of Jordan. With eloquence and candour, Noor talks frankly of the many challenges of her life as wife and partner to the monarch, providing both an intimate portrait of the late King Hussein and his quest for peace in the Middle East, and a moving account of the demands his public role as a world statesman placed on the royal couple's private life. Sharing a personal perspective on the past three decades of world history, Leap of Faith highlights Queen Noor's views on Islam and the West; the challenges of rearing her family; her work as Queen and humanitarian activist; and her struggles to protect her husband as he slipped into the illness that would kill him in 1999. Her story is filled with recollections of the world's most powerful and interesting people: Queen Elisabeth, Jimmy Carter, Pierre Trudeau, Yassar Arafat and Anwar Sadat. In the wake of September 11, Noor reflects on the true message of Islam and the ongoing violence in the Middle East from her unique perspective with a deep and abiding understanding of Arab aspirations and history. Leap of Faith is refreshingly candid and clear-eyed, a true love story set against the turbulent politics of the last thirty years.

A #1 New York Times Bestseller This is the story of a young American woman who became wife and partner to an Arab monarch. It provides a compelling portrait of the late King Hussein and his lifelong effort to bring peace to his war torn region, and an insider's view of the growing gulf between the United States and the Arab nations. It is also the refreshingly candid story of a mother coming to terms with the demands the king's role as a world statesman placed on her family's private life. But most of all it is a love story -- the intimate account of a woman who lost her heart to a king, and to his people.

Leap of Faith is the dramatic and inspiring story of an American woman's remarkable journey into the heart of a man and his nation.

'After all this time Frankie Dettori still ranks amongst the all-time greats of the sport' LESTER PIGGOTT 'An autobiography as gripping as any Dick Francis thriller' YORKSHIRE POST 'Endearingly honest... a fastpaced, funny autobiography' COUNTRY LIFE MAGAZINE  
Legendary jockey, Frankie Dettori, shares his remarkable life story in this astonishingly intimate autobiography. When Lanfranco 'Frankie' Dettori arrived on British shores in 1985, aged just 14, he couldn't speak a word of English. Having left school just a year earlier and following in the footsteps of his father, he was eager to become a stable boy and apprentice jockey, willing to do everything it took to make it. This was his first, but certainly not his last, leap of faith. Despite his slight size, Frankie's impact upon the British racing scene was immediate and significant. Brimming with confidence, charisma and personality, and with what was clearly a precocious talent, in 1990 he became the first teenager since Lester Piggott to win over 100 races in a single season. By 1996, Frankie was already established as a celebrity in the sport and an adopted national treasure, but it was his extraordinary achievement of winning all seven races in a single day at Ascot that cemented his reputation as the greatest rider of his generation. Nearly 25 years later, and having won the Longines World's Best Jockey for three consecutive years running, Frankie has demonstrated an unparalleled level of longevity at the pinnacle of his sport. But his story is not simply one of uninterrupted success, but also of personal anguish, recovery and restoration - both in and out of the saddle. Now, Frankie compellingly reveals the lows to his highs; the plane crash that nearly killed him, the drugs ban that nearly made him quit the sport, and the acrimonious split from Godolphin that threatened his future. But Leap of Faith is also a story of love - for the sport he continues to dominate to this day, the great horses of his era (Stradivarius, Golden Horn, and of course Enable), and most importantly for his family, who have supported him every step of the way. Heartfelt and poignant, this is not simply a memoir, but a celebration of perseverance and defying the odds.

Leap of Faith: The Journey of a Dream is a dance memoir by world-renowned dancer, Saidah Nairobi. In this personal masterpiece, Saidah takes readers on the journey it took to make one of her biggest dreams fresh out of school, transform into her every day reality. From aspiring dancer to performing and touring around the world with entertainment icons, Beyonce, Usher, Ciara, and more, Leap of Faith is the real life account of an incredibly unorthodox and inspiring story. In it, Saidah shares not only her tour experiences, but also the story behind her dream, her marriage, and the popularized short blonde hair that became her signature. With unshakable faith, Saidah was able to leap into the vision of her dreams and see more than was imaginable. The path that she tread took courage, and from this candid memoir, you too will want to activate your faith, take a leap, and actualize your every dream.

Charles Darwin published The Origin of Species, his revolutionary tract on evolution and the fundamental ideas involved, in 1859. Nearly 150 years later, the theory of evolution continues to create tension between the scientific and religious communities. Challenges about teaching the theory of evolution in schools occur annually all over the country. This same debate raged within Darwin himself, and played an important part in his marriage: his wife, Emma, was quite religious, and her faith gave Charles a lot to think about as he worked on a theory that continues to spark intense debates. Deborah Heiligman's new biography of Charles Darwin is a thought-provoking account of the man behind evolutionary theory: how his personal life affected his work and vice versa. The end result is an engaging exploration of history, science, and religion for young readers. Charles and Emma is a 2009 National Book Award Finalist for

Young People's Literature.

The dramatic insider account of why we invaded Iraq, the motivations that drove it, and the frustrations of those who tried and failed to stop it, leading to the most costly misadventure in US history. A single disastrous choice in the wake of 9/11-the decision to use force to remove Saddam Hussein from power-did enormous damage to the wealth, well-being, and reputation of the United States. Few errors in U.S. foreign policy have had longer-lasting or more harmful consequences. Yet how the decision came to be made remains shrouded in mystery and mythology. To this day, even the principal architects of the war cannot agree on it. Michael Mazarr has interviewed dozens of players involved in the deliberations about the invasion of Iraq and has reviewed all the documents so far declassified. He paints a devastating portrait of an administration fueled by righteous conviction yet undercut by chaotic processes, rivalrous agencies, and competing egos. But more than the product of one bungling administration, the invasion of Iraq emerges here as a tragically typical example of modern U.S. foreign policy fiascos. Leap of Faith asks profound questions about the limits of US power and the accountability for its use. It offers lessons urgently relevant to stave off similar disasters-today and in the future.
