Batch Scripts are stored in
simple text files containing

Online Library Learn Batch File Programming By John

Albert
lines with commands that get executed in sequence, one after the other. Scripting is a way by which one can alleviate this necessity by automating these command sequences in order to make one's life at the shell

Online Library Learn Batch File Programming By John

Albert easier and more productive.

*Batch Script Tutorial -
Tutorialspoint*

Let's create a simple batch script to display "This is my first script". First, open up a text editor and

Online Library Learn Batch File Programming By John

Albert
save the file as a .bat
file. @echo off echo This is
my first script pause. Copy
and paste the code above and
click on that file to run
the script. It will generate
an output like this.
