This year's gala will be held at the Arc Leisure Centre Matlock on Sunday 27th October 2019, UPDATE 28th October: A huge thank you to everyone who competed, officiated, coached, team managed, helped, spectated and anything else I've forgotten!

Written for Hawaiian tourist trade but would be very useful for those who are puzzled by the behaviour and expectations of the Japanese. Good on conducting business with specific market segments from honeymooners to family groups or businessmen.

- Learn about how your swimming machine works- Understand why you feel the way you do in practice- Over 300 illustrations to help you grasp the tough conceptsDon't be afraid! This is not biology class, this is swimming class. Your body is a Swimming Machine with a lot of moving parts. Knowing how these all work can help you understand why you feel the way you do at practice, why you train the way you do, and why you race the way you do.Complicated exercise science is translated into simple "picture book" format by Swim Smart founder Karl Hamouche, MD."Karl's book has helped me understand and even enjoy the very difficult topic of human physiology. I laughed (who knew Glycolysis could be funny?) and I continue to refer to various chapters throughout the season for support and clarification.Karl explains the complexity of the human body in clear, simple language that helps both coaches and athletes get straight to the point: "How can I go fast!?" For example, last summer I read the Taper chapter to my group three weeks before our big meet and we had the most drama free Taper I've ever been a part of. We had a common language and noticed and named every stage along the way, and this helped all of us feel confident in the process and normalized the sensations that generally trigger uncertainty and doubt. We're doing the same thing with energy systems and I've never had more buy-in with both specific sets and overall cycles because we've got clarity around their purpose. Thank you, Karl, your book has helped me be a better coach!"- Megan Oesting, ASCA Coach of the year 2019, head coach of Eastern Iowa Federation and founder of MOSTswimtech.

#1 NEW YORK TIMES BESTSELLER • In her latest book, Brené Brown writes, “If we want to find the way back to ourselves and one another, we need language and the grounded confidence to both tell our stories and be stewards of the stories that we hear. This is the framework for meaningful connection.” In Atlas of the Heart, Brown takes us on a journey through eighty-seven of the emotions and experiences that define what it means to be human. As she maps the necessary skills and an actionable framework for meaningful connection, she gives us the language and tools to access a universe of new choices and second chances—a universe where we can share and steward the stories of our bravest and most heartbreaking moments with one another in a way that builds connection. Over the past two decades, Brown's extensive research into the experiences that make us who we are has shaped the cultural conversation and helped define what it means to be courageous with our lives. Atlas of the Heart draws on this research, as well as on Brown's singular skills as a storyteller, to show us how accurately naming an experience doesn't give the experience more power—it gives us the power of understanding, meaning, and choice. Brown shares, “I want this book to be an atlas for all of us, because I believe that, with an adventurous heart and the right maps, we can travel anywhere and never fear losing ourselves.”

A Recommended Read from: Vogue \* USA Today \* The Los Angeles Times \* Publishers Weekly \* The Week \* Alma \* Lit Hub A stunning and brutally honest memoir that shines a light on what happens when female desire conflicts with a culture of masculinity in crisis In her midthirties and newly free from a terrible relationship, Tabitha Lasley quit her job at a London magazine, packed her bags, and poured her savings into a six-month lease on an apartment in Aberdeen, Scotland. She decided to make good on a long-deferred idea for a book about oil rigs and the men who work on them. Why oil rigs? She wanted to see what men were like with no women around. In Aberdeen, Tabitha became deeply entrenched in the world of roughnecks, a teeming subculture rich with brawls, hard labor, and competition. The longer she stayed, the more she found her presence had a destabilizing effect on the men—and her. Sea State is on the one hand a portrait of an overlooked industry: “offshore” is a way of life for generations of primarily working-class men and also a potent metaphor for those parts of life we keep at bay—class, masculinity, the transactions of desire, and the awful slipperiness of a ladder that could, if we tried hard enough, lead us to security. Sea State is on the other hand the story of a journalist whose professional distance from her subject becomes perilously thin. In Aberdeen, Tabitha gets high and dances with abandon, reliving her youth, when the music was good and the boys were bad. Twenty years on, there is Caden: a married rig worker who spends three weeks on and three weeks off. Alone and in an increasingly precarious state, Tabitha dives into their growing attraction. The relationship, reckless and explosive, will lay them both bare.

Discover the business law book you'll actually enjoy reading. Time after time, readers like you have commented that this is the most interesting introduction to law they've ever read. Beatty/Samuelson/Abril's ESSENTIALS OF BUSINESS LAW, 7E is packed with current examples and real scenarios that bring law to life, whether you are a business learner or practicing professional. This reader-friendly presentation uses conversational writing to explain complex topics in easy-to-understand language. The authors draw from their law practices to offer memorable real stories that illustrate how legal concepts apply to everyday business practice. This edition also emphasizes today's digital landscape with new information on privacy and intellectual property. An updated ethics chapter offers a practical approach, using the latest research to explain why people make unethical decisions. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Morgan is bored with his life. Nothing exciting ever happens in his house. He can calculate his parents' daily routine to the exact minute. He feels old before his time, with nothing to look forward to but more boredom. Then one dreary Sunday, Morgan has a vision of a magnificent fish, a leaping marlin wild in the sea, a creature so free that it would rather die than be tamed. The dream (if dream it is) is so vivid, Morgan feels a shocking rush of strength and speed racing through his veins, smells the salt air, and tastes the electricity of an impending ocean storm. For one brief exhilarating moment, sitting in a cramped apartment on a city block where every building looks exactly like the next, Morgan is that marlin, and from that moment on, he begins to change. A comic Metamorphosis for kids, this poignant, gently humorous, and highly original tale by actor, playwright, and first-time novelist James DeVita is a tender testament to following one's heart. Through a series of miraculous and sometimes ridiculous events, Morgan comes to understand that he has the power to be whatever he wants to be -- even a fish -- as long as he believes in himself.
