Vocabulary review), completion, listing, labeling (illustrations), ranking/ordering, and application questions for textbook nursing care plans. Approximately 2,000 review questions include revised as well as new standard multiple-choice and alternate-format questions. NCLEX review question answer rationales discuss both correct and incorrect responses to help you explore the logic of your choices. Prioritization activities provide practice in prioritizing (deciding what to do first) and assignment (giving specific tasks to health care providers who may be supervised by LPNs, including nurse aids and nurse assistants). NEW! Completely revised content matches the most up-to-date nursing diagnoses.

disorders, and emergency and disaster management. Unique to this edition is the gerontologic nursing unit which addresses physiologic and psychosocial changes in the older adult, along with related disorders common to the elder patient - the primary patient group population you'll encounter in practice. It also emphasizes culturally competent care and holistic nursing, while thoroughly covering all relevant NCLEX-PN® test plan content. With updated guidelines on diabetes, heart failure, asthma, COPD, and cancer treatment protocols, no other resource offers the breadth of topics at a level that is so perfectly tailored to the LPN/LVN student. UNIQUE!
