Situated Literacies is a rich and varied collection of key writings from leading international scholars in the field of literacy. Each contribution, written in a clear, accessible style, makes the link between literacies in specific contexts and broader social practices. Detailed ethnographic studies of a wide variety of specific situations, all involving real texts and lived practices, are balanced with general claims about the nature of literacy. Contributors address a coherent set of issues: * the visual and material aspects of literacy * concepts of time and space in relation to literacy * the functions of literacies in shaping and sustaining identities in communities of practice * the relationship between texts and the practices associated with their use the role of discourse analysis on literacy studies These studies, along with a foreword by Denny Taylor, make a timely and important contribution to literacy theory and suggest directions for the further development of the field. Situated Literacies is essential reading for anyone involved in literacy education.

An important contribution to the multi-disciplinary study of literacy, narrative and culture, this work argues that literacy is perhaps best described as an ensemble of socially and historically embedded activities of cultural practices. It suggests viewing written language, producing and distributing, deciphering and interpreting signs, are closely related to other cultural practices such as narrative and painting. The papers of the first and second parts illustrate this view in contexts that range from the pre-historical beginnings of tracking signs' in hunter-gatherer cultures, and the emergence of modern literate traditions in Europe in the 17th to 19th century, to the future of electronically mediated writing in times of the post-Gutenberg galaxy. The chapters of the third present results of recent research in developmental and educational psychology. Contributions by leading experts in the field make the point that there is no theory and history of writing that does not presuppose a theory of culture and social development. At the same time, it demonstrates that every theory and history of culture must unavoidably entail a theory and history of writing and written culture. This book brings together perspectives on literacy from psychology, linguistics, history and sociology of literature, philosophy, anthropology, and history of art. It addresses these issues in plain language – not coded in specialized jargon – and addresses a multi-disciplinary forum of scholars and students of literacy, narrative and culture.

"For nonwriters, it is a glimpse into the trials and satisfactions of a life spent with words. For writers, it is a warm, rambling, conversation with a stimulating and extraordinarily talented colleague." — Chicago Tribune From Pulitzer Prize-winning Annie Dillard, a collection that illuminates the dedication and daring that characterizes a writer's life. In these short essays, Annie Dillard—the author of Pilgrim at Tinker Creek and An American Childhood—illuminates the dedication, absurdity, and daring that characterize the existence of a writer. A moving account of Dillard's own experiences while writing her works, The Writing Life offers deep insight into one of the most mysterious professions.

An essential volume for generations of writers young and old. Bird by Bird is a modern classic. This twenty-fifth anniversary edition will continue to spark creative minds for years to come. For a quarter century, more than a million readers—scribes and scribblers of all ages and abilities—have been inspired by Anne Lamott's hilarious, big-hearted, homespun advice. Advice that begins with the simple words of wisdom passed down from Anne's father—also a writer—in the iconic passage that gives the book its title: "Thirty years ago my older brother, who was ten years old at the time, was trying to get a report on birds written that he'd had three months to write. It was due the next day. We were out at our family cabin in Bolinas, and he was at the kitchen table close to tears, surrounded by binder paper and pencils and unopened books on birds, immobilized by the hugeness of the task ahead. Then my father sat down beside him, put his arm around my brother's shoulder, and said, 'Bird by bird, buddy. Just take it bird by bird.'"

Reading lists of some of the author's favorite books accompany her thoughts on the role of books and reading in her life

Looking at and listening to picture and story books is a ubiquitous activity, frequently enjoyed by many young children and their parents. Well before children can read for themselves they are able to learn from books. Looking at and listening to books increases children's general knowledge, understanding about the world and promotes language acquisition. This collection of papers demonstrates the breadth of information pre-reading children learn from books and increases our understanding of the social and cognitive mechanisms that support this learning. Our hope is that this Research Topic eBook will be useful for researchers as well as educational practitioners and parents who are interested in optimizing children's learning.

Siblings Bert, Willet, and Pansy know better than to go swimming at the old rock quarry. According to their father, it's the Devil's place, a place that's been cursed and forgotten. But Mississippi Delta summer days are scorching hot and they can't resist cooling off in the dark, bottomless water. Until the day six-year-old Pansy disappears. Not drowned, not lost . . . simply gone. After years with no sign, no hope of ever finding Pansy alive, Bert and Willet have tried to move on. But as surely as their mother died of a broken heart, they can't let go. So when clues surface drawing them to the remote tip of Florida, they drop everything and drive south. Deep in the murky depths of the Florida Everglades they may find the answer to Pansy's mysterious disappearance . . . but truth, like the past, is sometimes better left where it lies. Perfect for fans of Flannery O'Connor and Dorothy Allison, The Past Is Never is an atmospheric, haunting story of myths, legends, and the good and evil we carry in our hearts.

In recent years, narrative skills have been receiving increasing attention from researchers for their relevance in the development of language, literacy and socio-cognitive abilities. This volume brings together studies focusing on two key issues in the development of children's narrative skills. The first part of the Volume addresses the issue of the interrelatedness between narrative skills and literacy, language and socio-cognitive development, as well as of the impact of narrative practices on the promotion of these different skills. The second part of the Volume addresses the issue of how early interactional experiences, particular contextual settings and specific intervention procedures, can help children promote their narrative skills. The studies span a wide age range, from toddlers to late elementary school children, concern different languages (Dutch, English, French, German, Hebrew and Italian), and consider narrative skills and practices from a rich variety of theoretical and methodological approaches.
