Education is a reference that practitioners can turn to repeatedly for clarity and consistency as they implement restorative justice in educational settings.

Restorative justice, with its emphasis on identifying the justice needs of everyone involved in a crime, is helping restore prisoners' sense of humanity while holding them accountable for their actions. Toews, with years of experience in prison work, shows how these practices can change prison culture and society. Written for an incarcerated

audience, and for all those who work with people in prison, this book also clearly outlines the experiences and needs of this under-represented part of our society. A title in The Little Books of Justice and Peacebuilding Series.

Can community-building begin in a classroom? The authors of this book believe that by applying restorative justice at school, we can build a healthier and more just society. With practical applications and models. Can an overworked teacher possibly turn an unruly incident with students into an "opportunity for

Online Library Little Book Of Restorative Justice A

learning, growth, and community-building"? If restorative justice has been able to salvage lives within the world of criminal behavior, why shouldn't its principles be applied in school classrooms and cafeterias? And if our children learn restorative practices early and daily, won't we be building a healthier, more just society? Two educators answer yes, yes, and yes in this new addition to The Little Books of Justice and Peacebuilding series. Amstutz and Mullet offer applications and models. "Discipline that restores is a process to make things as

right as possible." This
Little Book shows how to get
there.

through effective, equitable, and transformative approaches. Eager to break the still-pervasive, centuries-long cycles of racial prejudice and trauma in America, Davis unites the racial justice and restorative justice movements, aspiring to increase awareness of deep-seated problems as well as positive action toward change. In *The Little Book of Race and Restorative Justice*, Davis highlights real restorative justice initiatives that function from a racial justice perspective; these programs are utilized in schools, justice systems, and

communities, intentionally seeking to ameliorate racial disparities and systemic inequities. Furthermore, she looks at initiatives that strive to address the historical harms against African Americans throughout the nation. This newest addition the Justice and Peacebuilding series is a much needed and long overdue examination of the issue of race in America as well as a beacon of hope as we learn to work together to repair damage, change perspectives, and strive to do better.

Here's a call to colleges and universities to consider implementing restorative

practices on their campuses, ensuring fair treatment of students and staff while minimizing institutional liability, protecting the campus community, and boosting morale. From an associate dean of student affairs who has put these models to work on his campus. Restorative justice is a collaborative decision-making process that includes victims, offenders, and others who are seeking to hold offenders accountable by having them (a) accept and acknowledge responsibility for their offenses, (b) to the best of their ability, repair the harm they caused to victims

and communities, and (c) work to reduce the risk of re-offense by building positive social ties to the community. David Karp writes in his introduction, “As a student affairs administrator, I have become deeply committed to the concept and practice of restorative justice. I have experienced how it can work given the very real pressures among campus conduct administrators to manage high case loads, ensure fair treatment, minimize institutional liability, protect the campus community, boost morale in a division with high turnover, and help

students learn from their mistakes without creating insurmountable obstacles to their future successes."

Justice Peacebuilding

Restorative justice is gaining acceptance for addressing harm and crime. Interventions have been developed for a wide range of wrongdoing. This book considers the use of restorative justice in response to sexual abuse. Rather than a blueprint or detailing a specific set of programs, it is more about mapping possibilities. It allows people to carefully consider its use in responding to violent crimes such as sexual abuse.

Online Library Little Book Of Restorative Justice A

Criminal justice approaches tend to sideline and re-traumatize victims, and punish offenders to the detriment of accountability. Alternatively, restorative justice centers on healing for victims, while holding offenders meaningfully accountable. Criminal justice responses tend to individualize the problem, and catch marginalized communities, such as ethnic minorities, within its net. Restorative justice recognizes that sexual abuse is a form of gender-based violence. Community-based practices are needed, sometimes in conjunction with, and sometimes to

Online Library Little Book Of Restorative Justice A

counteract, traditional criminal justice responses. This book describes impacts of sexual abuse, and explanations for sexual offending, demonstrating how restorative justice can create hope through trauma.

Engaging Practices for Integrating Restorative Justice Principles in Group Settings As restorative practices spread around the world, scholars and practitioners have begun to ask very important questions: How should restorative practices be taught? What educational structures and methods are in alignment with

Online Library Little Book Of Restorative Justice A

restorative values and principles? This book introduces games as an effective and dynamic tool to teach restorative justice practices. Grounded in an understanding of restorative pedagogy and experiential learning strategies, the games included in this book provide a way for learners to experience and more deeply understand restorative practices while building relationships and improving skills. Chapters cover topics such as:

- Introduction to restorative pedagogy and experiential learning
- How a restorative learning community can be built and strengthened
