Mac King is a god. Penn and Teller Tricks with Your Head is the world's greatest (and only) collection of hilarious, mystifying, and sometimes repulsive magic tricks that you can perform with your very own head. If you've only thought of your head as a receptacle for so-called higher learning, or as a structure for keeping your haircut from falling into your body cavity, rejoice! Now you can use that ten-pound meatball between your shoulders as a source of ribald entertainment. Best of all, when you learn to perform a head trick, you can never be caught without your prop. Mac King and Mark Levy have perfected the ultimate mix of head games (literally) in this clever illustrated volume that teaches you how to: \* Make your head disappear \* Penetrate your skull with a drinking straw \* Make a french fry vanish up your nose \* Read someone's mind \* Jab a fork in your eye

With numerous awards to his name, a long-running Las Vegas show, and an unbeatable brand of comedy and illusion, Mac King is unquestionably one of the world's top authorities on all things magic. Now, thanks to this entertaining, indispensable guide, you too can learn dozens of tricks and create your own spellbinding act! NATIONAL BESTSELLER An incredibly gripping, moving, and literate work of art, rarely does an author manage to re-create a moment in history with such mastery, authority, and psychological insight. Nelson DeMille At Thermopylae, a rocky mountain pass in northern Greece, the feared and admired Spartan soldiers stood three hundred strong. Theirs was a suicide mission, to hold the pass against the invading millions of the mighty Persian army. Day after bloody day they withstood the terrible onslaught, buying time for the Greeks to rally their forces. Born into a cult of spiritual courage, physical endurance, and unmatched battle skill, the Spartans would be remembered for the greatest military stand in history one that would not end until the rocks were awash with blood, leaving only one gravely injured Spartan squire to tell the tale. . . . A novel that is intricate and arresting and, once begun, almost impossible to put down. Daily News A timeless epic of man and war. . . . Pressfield has created a new classic deserving a place beside the very best of the old. Stephen Coonts

Last August, two men in rural Georgia announced that they had killed Bigfoot. The claim drew instant, feverish attention, leading to more than 1,000 news stories worldwide despite the fact that nearly everyone knew it was a hoax. Though Bigfoot may not exist, there's no denying Bigfoot mania. With Bigfoot, Joshua Blu Buhs traces the wild and woolly story of America's favorite homegrown monster. He begins with nineteenth-century accounts of wildmen roaming the forests of America, treks to the Himalayas to reckon with the Abominable Snowman, then takes us to northern California in 1958, when reports of a hairy hominid loping through remote woodlands marked Bigfoot's emergence as a modern marvel. Buhs delves deeply into the trove of lore and misinformation that has sprung up around Bigfoot in the ensuing half century. We meet charlatans, pseudo-scientists, and dedicated hunters of the beast and with Buhs as our guide, the focus is always less on evaluating their claims than on understanding why Bigfoot has inspired all this drama and devotion in the first place. What does our fascination with this monster say about our modern relationship to wilderness, individuality, class, consumerism, and the media? Writing with a scientist's skepticism but an enthusiast's deep engagement, Buhs invests the story of Bigfoot with the detail and power of a novel, offering the definitive take on this elusive beast.
