~~**Guide Great Photos DSLR 5**  
Magic Lantern Guides Pentax~~  
The paperback size Magic Lantern  
guide repeats much of the Pentax  
manual but by using hints and  
tips it 'interprets' topics,  
explaining why a particular  
feature is there and when and  
how it might be used. The sample  
photographs illustrating camera  
uses are generic and are often  
just fillers adding a splash of  
colour.

~~Magic Lantern Guides: Pentax K 7: Amazon.co.uk: Peter K ...~~

This is where the Magic Lantern Pentax K10D guide came in. It does a very good job of helping to fill in the blanks and clearing up the confusion. It also helps to explain the features of digital photography that a film user might not have encountered before. Things like histograms and the exposure peculiarities of digital sensors.

~~Amazon.co.uk:Customer reviews:  
Magic Lantern Guides ...~~

I recently purchased the book  
Pentax K200D by Magic Lantern  
Guides and it is an excellent  
publication. The user manual that  
came with the camera is good but  
basically gives one the bare facts  
about the camera. The Guide  
goes into much more detail plus it  
is in a language that is easy to  
follow. I recommend this book to  
anyone who has a Pentax K200D  
as it will help them in getting the  
best out ...
