In its original edition, this culmination of Jean Shinoda Bolen's life's work sold over 25,000 copies. Now in paperback for the first time Urgent Message from Mother is a call to action for all the women of the world. This unique combination of visionary thinking and practical how-to seeks to galvanize the power of women acting together in order to save our world. Bolen outlines the lessons we can learn from the women's movement, draws on Jungian psychology and the sacred feminine, and gives powerful examples of women coming together all over the globe and making a significant impact.

A liste of recommended readings for children, intended for home use and arranged by age, not school grade. Included in the list are fairy tales that are free from horrible happenings. Omitted are all writings which tolerate cruelty or unkindness to animals.

Laugh along with Dorie June and a road trip like no other.

Arnold Toynbee's A Study of History has been acknowledged as one of the greatest achievements of modern scholarship. A ten-volume analysis of the rise and fall of human civilizations, it is a work of breath-taking breadth and vision. D.C. Somervell's abridgement, in two volumes, of this magnificent enterprise, preserves the method, atmosphere, texture, and, in many instances, the very words of the original. Originally published in 1947 and 1957, these two volumes are themselves a great historical achievement. Volume 1, which abridges the first six volumes of Toynbee's study, includes the Introduction, The Geneses of Civilizations, and The Disintegrations of Civilizations. Volume 2, an abridgement of Volumes VII-X, includes sections on Universal States, Universal churches, Heroic Ages, Contacts Between Civilizations in Space, Contacts Between Civilizations in Time, Law and Freedom in History, The Prospects of the Western Civilization, and the Conclusion. Of Somervell's work, Toynbee wrote, "The reader now has at his command a uniform abridgement of the whole book, made by a clear mind that has not only mastered the contents but has entered into the writer's outlook and purpose."

When a meteorite lands in Surrey, the locals don't know what to make of it. But as Martians emerge and begin killing bystanders, it quickly becomes clear—England is under attack. Armed soldiers converge on the scene to ward off the invaders, but meanwhile, more Martian cylinders land on Earth, bringing reinforcements. As war breaks out across England, the locals must fight for their lives, but life on Earth will never be the same. This is an unabridged version of one of the first fictional accounts of extraterrestrial invasion. H. G. Wells's military science fiction novel was first published in book form in 1898, and is considered a classic of English literature.

Describes the first-ever Earth Day held in 1970 and discusses the ensuing rise of the environmental movement that has since grown to become a major source of inspiration to Americans and others around the world.
