This groundbreaking and highly acclaimed work examines the two most influential African-American leaders of this century. While Martin Luther King, Jr., saw America as "a dream . . . Cone cuts through superficial assessments of King and Malcolm as polar opposites to reveal two men whose visions were moving toward convergence. (Orbis Books)

This dual biography of Malcolm X and Martin Luther King upends longstanding preconceptions to transform our understanding of the twentieth century's most iconic African American leaders. To most Americans, Malcolm X and Martin Luther King Jr. represent contrasting ideals: self-defense vs. nonviolence, black power vs. civil rights, the sword vs. the shield. The struggle for black freedom is wrought with the same contrasts. While nonviolent direct action is remembered as an unassailable part of American democracy, the movement's militancy is either vilified or erased outright. In *The Sword and the Shield*, Peniel E. Joseph upends these misconceptions and reveals a nuanced portrait of two men who, despite markedly different backgrounds, inspired and pushed each other throughout their adult lives. This is a strikingly revisionist biography, not only of Malcolm and Martin, but also of the movement and era they came to define.

One man dreamed of a country united in true racial equality. Another saw this as a nightmare that served only the interest of wealthy whites. Both were sons of Baptist ministers. Both grew up to be icons of the civil rights movement. This book explores Martin Luther King, Jr.'s dream and much more.

"Tubbs' connection to these women is palpable on the page – as both a mother and a scholar of the impact Black motherhood has had on America. Through Tubbs' writing, Berdis, Alberta, and Louise's stories sing. There's a history forgotten that begs to be told, and Tubbs tells it brilliantly." – Ibram X. Kendi, #1 New York Times bestselling author of *How to Be an Antiracist* and National Book Award winner Stamped from the Beginning Much has been written about Berdis Baldwin's son James, about Alberta King's son Martin Luther, and Louise Little's son Malcolm. But virtually nothing has been said about the extraordinary women who raised them. In her groundbreaking and essential debut *The Three Mothers*, scholar Anna Malaika Tubbs celebrates Black motherhood by telling the story of the three women who raised and shaped some of America's most pivotal heroes. These three extraordinary women passed their knowledge to their children with the hope of helping them to survive in a society that would deny their humanity from the very beginning—from Louise teaching her children about their activist roots, to Berdis encouraging James to express himself through writing, to Alberta basing all of her lessons in faith and social justice. These women used their strength and motherhood to push their children toward greatness, all with a conviction that every human being deserves dignity and respect despite the rampant discrimination they faced. These three mothers taught resistance and a fundamental belief in the worth of Black people to their sons, even when these beliefs flew in the face of America's racist practices and led to ramifications for all three families' safety. The fight for equal justice and dignity came above all else for the three mothers. These women, their similarities and differences, as individuals and as mothers, represent a piece of history left untold and a celebration of Black motherhood long overdue.

Cuts through the superficial caricatures of Martin Luther King Jr and Malcolm X to reveal two men whose visions were complementary and moving towards convergence. Other books by James H. Cone include *Black Theology and Black Power* and *The Spirituals and the Blues: An Interpretation*.

The civil rights movement's most prominent leaders, Martin Luther King, Jr. (1929-1968) and Malcolm X (1925-1965), represent two wings of the revolt against racism: nonviolent resistance and revolution "by any means necessary." This volume presents the two leaders' relationship to the civil rights movement beyond a simplified dualism. A rich selection of speeches, essays, and excerpts from Malcolm X's autobiography and King's sermons shows the breadth and range of each man's philosophy, demonstrating their differences, similarities, and evolution over time. Organized into six topical groups, the documents allow students to compare the leaders' views on subjects including integration, the American dream, means of struggle, and opposing racial philosophies. An interpretive introductory essay, chronology, selected bibliography, document headnotes, and questions for consideration provide further pedagogical support.

An unflinching look at nineteenth- and twentieth-century African American leaders and their visionary legacies. In an accessible, conversational format, Cornel West, with distinguished scholar Christa Buschendorf, provides a fresh perspective on six revolutionary African American leaders: Frederick Douglass, W. E. B. Du Bois, Martin Luther King Jr., Ella Baker, Malcolm X, and Ida B. Wells. In dialogue with Buschendorf, West examines the impact of these men and women on their own eras and across the decades. He not only rediscovers the integrity and commitment within these passionate advocates but also their fault lines. West, in these illuminating conversations with the German scholar and thinker Christa Buschendorf, describes Douglass as a complex man who is both "the towering Black freedom fighter of the nineteenth century" and a product of his time who lost sight of the fight for civil rights after the emancipation. He calls Du Bois "undeniably the most important Black intellectual of the twentieth century" and explores the more radical aspects of his thinking in order to understand his uncompromising critique of the United States, which has been omitted from the American collective memory. West argues that our selective memory has sanitized and even "santaclaused" Martin Luther King Jr., rendering him less radical, and has marginalized Ella Baker, who embodies the grassroots organizing of the civil rights movement. The controversial Malcolm X, who is often seen as a proponent of reverse racism, hatred, and violence, has been demonized in a false opposition with King, while the appeal of his rhetoric and sincerity to students has been sidelined. Ida B. Wells, West argues, shares Malcolm X's radical spirit and fearless speech, but has "often become the victim of public amnesia." By providing new insights that humanize all of these well-known figures, in the engrossing dialogue with Buschendorf, and in his insightful introduction and powerful closing essay, Cornel West takes an important step in rekindling the Black prophetic fire so essential in the age of Obama.

Cone explores two classic aspects of African-American culture--the spirituals and the blues. He tells the captivating story of how slaves and the children of slaves used this music to affirm their essential humanity in the face of oppression. The blues are shown to be a 'this-worldly' expression of cultural and political rebellion. The spirituals tell about the 'attempt to carve out a significant existence in a very trying situation'.
