'This is a fantastic book which provides creative and practical suggestions of how to engage all children in writing' - Sarah Martin-Denham, Senior Lecturer in Primary Education, University of Sunderland
This book is a practical guide designed to stimulate story writing in the early years and primary classroom. It offers a collection of novel and effective Ideas which can be used by educators to energise, excite and motivate children to willingly write stories across the 3-11 age phase. Each chapter offers creative and innovative Ideas to get children writing stories, including:
- how to help children 'see the point' of story writing
- how speaking and listening, reading and phonics can be utilised to enhance written stories
- how technology can facilitate refreshing story writing
- how story writing can be physically interactive.
By combining theory with practice, this book is ideal for those training to teach the 3 to 11 age range, those beginning their teaching career, and those who are established in their professional role.

From "the godfather behind creative nonfiction" (Vanity Fair) comes this indispensable how-to for nonfiction writers of all levels and genres. "reminiscent of Stephen King's fiction handbook On Writing" (Kirkus). Whether you're writing a rags-to-riches tell-all memoir or literary journalism, telling true stories well is hard work. In You Can't Make This Stuff Up, Lee Gutkind, the go-to expert for all things creative nonfiction, offers his unvarnished wisdom to help you craft the best writing possible. Frank, to-the-point, and always entertaining, Gutkind describes and illustrates every aspect of the genre. Invaluable tools and exercises illuminate key steps, from defining a concept and establishing a writing process to the final product. Offering new ways of understanding the genre, this practical guidebook will help you thoroughly expand and stylize your work.

Powerful and visually spectacular, Moth is the remarkable evolution story that captures the struggle of animal survival against the background of an evolving human world in a unique and atmospheric introduction to Darwin's theory of Natural Selection. "This is a story of light and dark..." Against a lush backdrop of lichen-covered trees, the peppered moth lies hidden. Until the world begins to change... Along come people with their magnificent machines which stain the land with soot. In a beautiful landscape changed by humans how will one little moth survive? A clever picture book text about the extraordinary way in which animals have evolved, intertwined with the complication of human intervention. This remarkable retelling of the story of the pepered moth is the perfect introduction to natural selection and evolution for children.

Developed by educators in Milwaukee's public schools and successfully used with over 15,000 students, this book will show you how to:
- engage your students in high quality work
- reveal information about your students which cannot be seen through standardized tests
- help students become responsible for their own academic growth.
The tasks and rubrics in this book will help you discover the strengths and learning needs of your students. With concrete, detailed examples from Kindergarten through 5th grade, this book demonstrates how to implement assessment portfolios in your classroom. Part I provides concrete details about how to organize, implement, and maintain assessment portfolios throughout the school year. In Part II are assessments in reading, writing, and math - featuring class tested scoring rubrics and samples of student work. Also included are learning projects, rich classroom activities requiring high quality intellectual work. Part III contains student handouts and scoring sheets, ready for you to distribute and use with the students in your class.
